SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authorization for the Benefits Timeliness and Quality Review System. The Secretary of Labor has a legal responsibility under Social Security Act (SSA) section 303(a)(1) to reimburse a State Workforce Agency (SWA) the necessary costs of proper and efficient administration of State unemployment insurance (UI) laws. The Secretary must establish a means of measuring a SWA's proper and efficient administration in order to certify a State payment. The Secretary must ensure, among other duties needed for a subject employer within a State to be allowed to receive offset credit under the Federal Unemployment Tax Act, that a State UI law conforms to Federal law and that the State complies with the law. The Benefits Timeliness and Quality Program is one of the ways in which the ETA collects program operating information to meet this obligation. SSA section 303(a)(6) authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0359.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on February 28, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 16, 2013 (78 FR 42548).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0359. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
