

### Petition Finding

After reviewing the information contained in the petition, as well as information readily available in our files, we conclude that the petition does not present substantial scientific or commercial information indicating the petitioned action may be warranted for the Galápagos fur seal, *Arctocephalus galapagoensis*. In contrast, as described above, we find that there is substantial scientific information indicating the petitioned action may be warranted for Hector's dolphin, *Cephalorhynchus hectori*; the BSS of the harbor porpoise, *Phocoena phocoena*; the ETS subpopulation of the Indo-Pacific humpback dolphin, *Sousa chinensis*; and the Fiordland subpopulation of the bottlenose dolphin, *Tursiops truncatus*. We hereby announce the initiation of status reviews for each of these four entities to determine whether the petition actions are warranted.

### Information Solicited

To ensure that the status reviews are based on the best available scientific and commercial data, we are soliciting information relevant to whether Hector's dolphin, the BSS of harbor porpoise, the ETS subpopulation of the Indo-Pacific humpback dolphin, and the Fiordland subpopulation of bottlenose dolphin may warrant listing as threatened or endangered under the ESA. Specifically, we are soliciting data and information, including unpublished data and information, in the following areas: (1) Historical and current distribution and abundance of Hector's dolphin and the petitioned subpopulations of harbor porpoise, Indo-Pacific humpbacked dolphin, and bottlenose dolphin throughout their range; (2) historical and current population trends; (3) life history and habitat requirements (4) genetic analyses of subpopulations, populations or subspecies; (5) past, current and future threats, including any current or planned activities that may adversely impact these marine mammals; (6) ongoing or planned efforts to protect and restore the marine mammals and their habitat; and (7) management, regulatory, and enforcement information. We request that all information be accompanied by: (1) Supporting documentation such as maps, bibliographic references, or reprints of pertinent publications; and (2) the submitter's name, address, and any association, institution, or business that the person represents.

A complete list of references is available upon request to the Office of Protected Resources (see **ADDRESSES**).

### Authority

The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

Dated: February 14, 2014.
