#### **SUPPLEMENTARY INFORMATION:**

##### **I. Abstract**

This request is for an extension of a currently approved information collection.

Based on the management regime specified each year, designated regulatory areas in the commercial ocean salmon fishery off the coasts of Washington, Oregon, and California may be managed by numerical quotas. To accurately assess catches relative to quota attainment during the fishing season, catch data by regulatory area must be collected in a timely manner. Requirements to land salmon within specific time frames and in specific areas may be implemented in the preseason regulations to aid in timely and accurate catch accounting for a regulatory area. State landing systems normally gather the data at the time of landing. If unsafe weather conditions or mechanical problems prevent compliance with landing requirements, fishermen need an alternative to allow for a safe response. Fishermen would be exempt from landing requirements if the appropriate notifications are made to provide the name of the vessel, the port where delivery will be made, the approximate amount of salmon (by species) on board, and the estimated time of arrival.

##### **II. Method of Collection**

Notifications are made by at-sea radio or cellular phone transmissions.

##### **III. Data**

#### Criteria To Assist the Assistant Administrator in Determining if an Observer Program is Qualified and Authorized

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; request for comments.

**SUMMARY:** NMFS requests comments on criteria to determine if observers participating in observer programs are qualified and authorized to certify that no dolphins were killed or seriously injured in the sets or other gear deployments in which the tuna were caught and, if applicable, that no purse seine net was intentionally deployed on or used to encircle dolphins during the fishing trip in which the tuna were caught. The criteria are intended to
