Analysis of Comments Received

The issues discussed in the Decision Memorandum are the likelihood of continuation or recurrence of dumping, and the magnitude of the margins of dumping likely to prevail if these orders were revoked. The analysis addresses the impact of the *Final Modification for Reviews*⁴ on these reviews. Parties can find a complete discussion of all issues raised in this review and the

corresponding recommendations in this public memorandum which is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and is available to all parties in the Central Records Unit in room 7046 of the main Commerce building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Internet at <http://trade.gov/enforcement/>. The signed Decision Memorandum and electronic versions of the Decision Memorandum are identical in content.

Background

On November 13, 2013, Hitachi Metals requested that the Department conduct an expedited changed circumstances review under 19 CFR 351.221(c)(3)(ii) to confirm that it is the successor-in-interest to Hitachi Cable for purposes of determining antidumping duty cash deposits and liabilities.

On December 31, 2013, the Department preliminarily determined that Hitachi Metals is the successor-in-interest to the merger of Hitachi Metals and Hitachi Cable.¹ In the *Initiation and Preliminary Results*, we provided all interested parties with an opportunity to comment or request a public hearing regarding this finding. Although the HTSUS numbers are provided for convenience and customs purposes, the written product description, available in the *Order*, remains dispositive.²

Final Results of Changed Circumstances Review

Because no parties submitted comments opposing the Department's preliminary results, and because there is no other information or evidence on the record that calls into question the preliminary results, for the reasons outlined in the *Initiation and Preliminary Results*, the Department determines that Hitachi Metals is the successor-in-interest to the merger of Hitachi Metals and Hitachi Cable for the purpose of determining antidumping duty liability.³ Specifically, we find that

the merger of these two companies resulted in no significant changes to management, production facilities, supplier relationships, and customers with respect to the production and sale of the subject merchandise. Thus, Hitachi Metals operates as the same business entity as Hitachi Cable with respect to the subject merchandise.⁴ As a result of this determination, we find that Hitachi Metals should receive the cash deposit rate previously assigned to Hitachi Cable in the most recently completed review of the antidumping duty order on SSSC from Japan. Consequently, the Department will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise produced and/or exported by Hitachi Metals and entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at 0.00 percent, which is the current cash deposit rate for Hitachi Cable.⁵ This cash deposit requirement shall remain in effect until further notice.

Notification

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing this determination and publishing these final results and notice in accordance with sections 751(b)(1) and 777(i)(1) and (2) of the Tariff Act of 1930, as amended, and 19 CFR 351.216 and 351.221(c)(3).

Dated: February 12, 2014.

Assistant Secretary for Enforcement and Compliance.

There are three primary chemical compositions of chlorinated isocyanurates: (1) Trichloroisocyanuric acid ("TCCA") (Cl₃(NCO)₃), (2) sodium dichloroisocyanurate (dihydrate) (NaCl₂(NCO)₃ × 2H₂O), and (3) sodium dichloroisocyanurate (anhydrous) (NaCl₂(NCO)₃). Chlorinated isocyanurates are available in powder, granular and solid (*e.g.*, tablet or stick) forms.

Chlorinated isocyanurates are currently classifiable under subheadings 2933.69.6015, 2933.69.6021, 2933.69.6050, 3808.50.4000, 3808.94.5000, and 3808.99.9500 of the Harmonized Tariff Schedule of the United States ("HTSUS").
