

NATIONAL SCIENCE FOUNDATION**Notice of Intent To Seek Approval To Renew an Information Collection**

AGENCY: National Science Foundation.

ACTION: Notice and Request for Comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request clearance of this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104–13), we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for no longer than three years.

DATES: Written comments on this notice must be received by April 28, 2014 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

For Additional Information: Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230; telephone (703) 292–7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday. You also may obtain a copy of the data collection instrument and instructions from Ms. Plimpton.

SUPPLEMENTARY INFORMATION:

Title of Collection: NSF Surveys to Measure Customer Service Satisfaction.

OMB Number: 3145–0157.

Expiration Date of Approval: September 30, 2014.

Type of Request: Intent to seek approval to renew an information collection.

Abstract:

Proposed Project: On September 11, 1993, President Clinton issued Executive Order 12862, “Setting Customer Service Standards,” which calls for Federal agencies to provide service that matches or exceeds the best service available in the private sector. Section 1(b) of that order requires agencies to “survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services.” The National Science Foundation (NSF) has an ongoing need to collect information from its customer community (primarily individuals and organizations engaged in science and engineering research and education) about the quality and kind of

services it provides and use that information to help improve agency operations and services.

Estimate of Burden: The burden on the public will change according to the needs of each individual customer satisfaction survey; however, each survey is estimated to take approximately 30 minutes per response.

Respondents: Will vary among individuals or households; business or other for-profit; not-for-profit institutions; farms; federal government; state, local or tribal governments

Estimated Number of Responses per Survey: This will vary by survey.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: February 19, 2014.

NATIONAL SCIENCE FOUNDATION**Agency Information Collection Activities: Proposed Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery**

AGENCY: National Science Foundation.

ACTION: 30-Day notice of submission of information collection approval from the Office of Management and Budget and request for comments.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the National Science Foundation has submitted a Generic Information Collection Request (Generic ICR): “Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” to OMB for approval under the Paperwork

Reduction Act (PRA) (44 U.S.C. 3501 et. seq.).

DATES: Comments must be submitted March 27, 2014.

ADDRESSES: Written comments may be submitted to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725 17th Street NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230 or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

FOR FURTHER INFORMATION CONTACT: To request additional information, please contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230 or send email to splimpto@nsf.gov.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable

results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

The Agency received no comments in response to the 60-day notice published in the **Federal Register** of December 18, 2013 (78 FR 76661).

Below we provide the National Science Foundation's projected average estimates for the next three years:

Current Actions: New collection of information.

Type of Review: New collection.

Affected Public: Individuals and households, businesses and organizations, State, Local or Tribal Government.

Average Expected Annual Number of activities: 15.

Respondents: 500 per activity.

Annual responses: 7,500.

Frequency of Response: Once per request.

Average minutes per response: 30.

Burden hours: 3,750.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Dated: February 19, 2014.

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2014-0025]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* DOE/NRC Form 742, "Material Balance Report," and DOE/NRC Form 742C, "Physical Inventory Listing," and NUREG/BR-0007, "Instructions for the Preparation and Distribution of Material Status Reports."

2. *Current OMB approval number:* DOE/NRC Form 742: 3150-0004. DOE/NRC Form 742C: 3150-0058.

3. *How often the collection is required:* DOE/NRC Form 742 is submitted once a year within thirty days

after the start of a physical inventory as part of the material accounting and control procedures. DOE/NRC Form 742C is submitted once a year when licensees complete their physical inventory as part of the material accounting and control procedures.

4. *Who is required or asked to report:* DOE/NRC Form 742, Persons licensed to possess specified quantities of special nuclear material or source material. Any licensee, including nuclear reactor licensees, possessing, or who had possessed in the previous reporting period, at any one time and location, special nuclear material in a quantity totaling one gram or more shall complete DOE/NRC Form 742. In addition, each licensee, Federal or State, who is authorized to possess, at any one time or location, 1 kilogram of foreign obligated source material, is required to file with the NRC an annual statement of source material inventory which is foreign-obligated. DOE/NRC Form 742C, Persons licensed to possess specified quantities of special nuclear material or source material. Any licensee, including nuclear reactor licensees, possessing, or who had possessed in the previous reporting period, at any one time and location, special nuclear material in a quantity totaling one gram or more shall complete DOE/NRC Form 742C.

5. *The number of annual respondents:* DOE/NRC Form 742: 360 respondents. DOE/NRC Form 742C: 360 respondents.

6. *The number of hours needed annually to complete the requirement or request:* DOE/NRC Form 742: 1,260 hours. DOE/NRC Form 742C: 1,440 hours.

7. *Abstract:* The NRC is required to collect nuclear material transaction information for domestic safeguards use and make it available to the International Atomic Energy Agency (IAEA). Licensees use DOE/NRC Form 742 to report the material balance within 30 days after the start of a physical inventory of nuclear materials actually present at licensee's facilities, including the quantities of foreign obligated source material. Licensees use DOE/NRC Form 742C to report the material status based on a physical inventory of nuclear materials actually present at licensee's facilities. These forms enable the NRC to collect, retrieve, analyze, and submit the data to IAEA to fulfill its reporting responsibilities.

This information collection request will also categorize these forms as common forms. Once OMB approves the use of these common forms, all Federal agencies using the form may request use of this common form without additional 60- or 30-day notice and comment
