#### Facilitating the Deployment of Text-to-911 and Other Next Generation 911 Applications; Framework for Next Generation 911 Deployment

**AGENCY:** Federal Communications Commission.

**ACTION:** Policy Statement.

**SUMMARY:** The Federal Communications Commission (Commission) adopts a Policy Statement expressing its belief that every CMRS carrier and every provider that enables a consumer to send text messages using numbers from the North American Numbering Plan should support text-to-911 capabilities. The Commission intends to pursue a technologically-neutral approach that provides platform-independent norms for all stakeholders, based on high-level functional standards set by the relevant stakeholders in industry and the public safety community.

#### Policy Statement

The Federal Communications Commission (Commission) believes that every CMRS carrier and every provider that enables a consumer to send text messages using numbers from the North American Numbering Plan should support text-to-911 capabilities.

The Commission intends to pursue a technologically-neutral approach that provides platform-independent norms for all stakeholders, based on high-level functional standards set by the relevant stakeholders in industry and the public safety community. Stakeholders should develop implementation details on a consensual basis in a manner that enables fact-based monitoring of progress by the relevant industry bodies, 911 and public safety authorities, and regulatory agencies. If the multi-stakeholder process achieves these values in a timely manner, we envision that any overarching functional rule adopted by the Commission would not need to impose additional obligations beyond those agreed to in the multi-stakeholder context. Rather, we expect that it would be needed only to codify the multi-stakeholder standard so it applies to all providers equally (including future entrants into the market) in a manner that brings regulatory clarity so that all participants in the 911 ecosystem can plan accordingly.

The Commission is particularly pleased that certain carriers have taken a leadership role on this issue and worked with public safety organizations to establish a May 15, 2014, deadline by which those carriers would support text-to-911 service nationwide. We encourage CMRS and interconnected text providers that are not parties to the Carrier-NENA-APCO Agreement to work with the public safety community to develop similar commitments to support text-to-911 in a timely manner, so that all consumers will be assured access to text-to-911 regardless of what text provider they choose.

### Proposed Project

Measuring the Effects of State and Local Radon Policies—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

### Background and Brief Description

Lung cancer is the leading cause of cancer-related death in the U.S. population, with only 17% of lung cancer patients surviving 5 years or more from the time of diagnosis. Radon is a radioactive gas that concentrates in homes and is well-established as the leading cause of lung cancer in non-smokers and the second leading cause of lung cancer in smokers. Radon exposure reduction is the focus of two Healthy People 2020 objectives related to reduction of the number of people living in high-concentration radon homes and the subject of a "Call to Action" from
