Additionally, Section 306 of Title 23, United States Code, requires the Secretary of Transportation to issue guidance to encourage States to utilize, to the maximum extent practicable, private sector sources for surveying and mapping services for projects under title 23 of the United States Code; and, to develop a process for the oversight and regular monitoring

Included in the survey will be the request for information from the State transportation agencies, on the extent to which they use the private sector for surveying and mapping activities. Information obtained from the survey will be used to issue revised guidance recommending appropriate roles for government and private sector surveying activities and in continuing to encourage States to use private sector sources to provide these services. The survey results will also be used to develop a process for the oversight and regular monitoring of each State's use of the private sector to provide these services.
