

notice when finalizing the documents. Once the health effects documents are finalized, they will be utilized to develop lifetime health advisory values for each chemical. PFOA and PFOS are listed on the third contaminant Candidate List (CCL3)¹ and both chemicals are currently being monitored under the third Unregulated Contaminant Monitoring Rule (UCMR3)².

II. How To Submit Nominations for Peer Reviewers

Expertise Sought: EPA is seeking candidates who are nationally and/or internationally recognized scientific experts to serve as external peer reviewers for the draft health effects documents for PFOA and PFOS. Nominees should possess and demonstrate background knowledge and experience in one or more of the following areas: (1) Epidemiology, (2) toxicology (liver effects, immunotoxicity, neurotoxicity, developmental and reproductive toxicology, etc.), (3) membrane transport, (4) human health risk assessment, (5) pharmacokinetic models, and (6) mode-of-action for cancer and noncancer effects.

Selection Criteria: Selection criteria for individuals nominated to serve as external peer reviewers of the draft documents include the following: (1) Demonstrated expertise through relevant peer reviewed publications, (2) professional accomplishments and recognition by professional societies, (3) demonstrated ability to work constructively and effectively in a committee setting, (4) absence of financial conflicts of interest, (5) no actual conflicts of interest or the appearance of lack of impartiality, (6) willingness to commit adequate time for the thorough review of the draft health effects documents for PFOA and PFOS commencing in June 2014 (exact date to be determined), and (7) availability to participate in-person in a two-day peer review meeting in the Washington, DC metro area in July or August 2014 (exact date will be published in the **Federal**

Register at least 30 days prior to the external peer review meeting). Further information regarding the external peer review meeting will be announced at a later date in the **Federal Register**.

Peer reviewer candidates must not have previously provided comments on the draft health effects documents for PFOA and PFOS; that is, anyone wishing to be considered as a peer reviewer must not submit comments during the 60-day public comment period. However, candidates not selected for the panel peer review will be given a limited opportunity to submit public comments once the final peer reviewers are selected by Versar, Inc., the EPA contractor managing this peer review process.

Required Nominee Information: To receive full consideration, the following information should be provided on the nomination form available at the Versar URL: (1) Contact information for the person making the nomination; (2) contact information for the nominee; (3) the disciplinary and specific areas of expertise of the nominee; (4) the nominee's curriculum vita; and (4) a biographical sketch of the nominee indicating current position, educational background, past and current research activities, and recent service on other advisory committees, peer review panels, editorial boards, or professional organizations, sources of recent grant and/or contract support, and other comments on the relevance of the nominee's expertise to this peer review topic. Compensation of non-federal peer reviewers will be provided by EPA's contractor.

Selection Process: EPA's contractor, Versar, will notify candidates of selection or non-selection. Versar may also conduct an independent search for candidates to assemble a balanced group representing the expertise needed to fully evaluate EPA's draft documents. Versar will consider and screen all candidates against the criteria listed above. Following the screening process, Versar will narrow the list of potential reviewers to 12–15 candidates. Prior to selecting the final peer reviewers, a second **Federal Register** notice will be published (exact date to be determined) to solicit comments on the interim list of 12–15 candidates. The public will be requested to provide relevant information or documentation on the nominees that Versar should consider in evaluating the candidates within 21 days of following the announcement of the interim candidates. Once the public comments on the interim list of candidates have been reviewed, Versar will select the final six to seven peer reviewers who, collectively, best

provide expertise spanning the multiple areas listed above and, to the extent feasible, best provide a balance of perspectives. Additional information on the nomination process can be found at: <http://peerreview.versar.com/epa/pfoa>.

III. How to Submit Comments (Scientific Views) on the Draft Health Effects Documents

The draft documents "Health Effects Document for Perfluorooctanoic Acid" and "Health Effects Document for Perfluorooctane Sulfonate" and charge questions are available electronically by the following methods: (1) Public Docket at <http://www.regulations.gov> (Docket ID No. EPA-HQ-OW-2014-0138) or (2) Versar's peer review Web site at <http://peerreview.versar.com/epa/pfoa>. Oral or written comments will not be accepted during the external peer review meeting, so it is important that all comments be submitted during the public comment period. As stated in Section II, anyone wishing to be considered as a peer reviewer must not submit comments during the 60-day public comment period. No comments will be accepted after the closing of the comment period except from those nominated as a potential peer reviewer but not selected as a final peer reviewer.
