*Information Collection Request Title:* Regional Extension Center Cooperative Agreement Program (CRM Tool)

*OMB No.:* 0955-0009

*Abstract:* The Customer Relationship Management (CRM) application is a nimble business intelligence tool being used by more than 1,500 users at ONC partner organizations and grantees. The CRM collects data from a large number of users throughout the United States who are "on the ground" helping healthcare providers adopt and optimize their IT systems, it provides near real-time data about the adoption, utilization, and meaningful use of EHR technology. Approximately half of all Primary Care Providers in the nation are represented in the CRM tool; data points include provider location, credential, specialty, whether live on an EHR and what system, whether they've reached MU, the time between these, and narrative barriers experienced by many of these.

*Need and Proposed Use of the Information:* The CRM tool supplements and is regularly merged with other data sources both within and outside of HHS and tracks program performance and progress towards milestones. Combined with ONC's internal analytical capacity, this data provides feedback that goes beyond anecdotal evidence and can be turned into tangible lessons learned that are used to focus policy and program efforts and ultimately achieve concrete outcomes.

*Likely Respondents:* Regional Extension Centers

*Burden Statement:* Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing

and providing information, to train personnel and to be able to respond to a collection of information, to search

data sources, to complete and review the collection of information, and to transmit or otherwise disclose the

information. The total annual burden hours estimated for this ICR are summarized in the table below.
