

public involvement in our decisionmaking process. According to our public review process (see footnote 1), the second opportunity for public involvement follows one of two approaches, as described below.

If APHIS decides, based on its review of the petition and its evaluation and analysis of comments received during the 60-day public comment period on the petition, that the petition involves a GE organism that raises no substantive new issues, APHIS will follow Approach 1 for public involvement. Under Approach 1, APHIS announces in the **Federal Register** the availability of APHIS' preliminary regulatory determination along with its EA, preliminary finding of no significant impact (FONSI), and its plant pest risk assessment (PPRA) for a 30-day public review period. APHIS will evaluate any information received related to the petition and its supporting documents during the 30-day public review period. For this petition, we are using Approach 1.

If APHIS decides, based on its review of the petition and its evaluation and analysis of comments received during the 60-day public comment period on the petition, that the petition involves a GE organism that raises substantive new issues, APHIS will follow Approach 2. Under Approach 2, APHIS first solicits written comments from the public on a draft EA and PPRA for a 30-day comment period through the publication of a Federal Register notice. Then, after reviewing and evaluating the comments on the draft EA and PPRA and other information, APHIS will revise the PPRA as necessary and prepare a final EA and, based on the final EA, a National Environmental Policy Act (NEPA) decision document (either a FONSI or a notice of intent to prepare an environmental impact statement).

As part of our decisionmaking process regarding a GE organism's regulatory status, APHIS prepares a PPRA to assess the plant pest risk of the article. APHIS also prepares the appropriate environmental documentation—either an EA or an environmental impact statement—in accordance with NEPA, to provide the Agency and the public with a review and analysis of any potential environmental impacts that may result if the petition request is approved.

APHIS has prepared a PPRA and has concluded that soybean event DAS-81419-2 is unlikely to pose a plant pest risk. In section 403 of the Plant Protection Act, "plant pest" is defined as any living stage of any of the following that can directly or indirectly

injure, cause damage to, or cause disease in any plant or plant product: A protozoan, a nonhuman animal, a parasitic plant, a bacterium, a fungus, a virus or viroid, an infectious agent or other pathogen, or any article similar to or allied with any of the foregoing.

APHIS has prepared an EA in which we present two alternatives based on our analysis of data submitted by DAS, a review of other scientific data, field tests conducted under APHIS oversight, and comments received on the petition. APHIS is considering the following alternatives: (1) Take no action, i.e., APHIS would not change the regulatory status of soybean event DAS-81419-2 and it would continue to be a regulated article, or (2) make a determination of nonregulated status of soybean event DAS-81419-2.

The EA was prepared in accordance with (1) NEPA, as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372). Based on our EA and other pertinent scientific data, APHIS has reached a preliminary FONSI with regard to the preferred alternative identified in the EA.

Based on APHIS' analysis of field and laboratory data submitted by DAS, references provided in the petition, peer-reviewed publications, information analyzed in the EA, the PPRA, comments provided by the public on the petition, and discussion of issues in the EA, APHIS has determined that soybean event DAS-81419-2 is unlikely to pose a plant pest risk. We have therefore reached a preliminary decision to make a determination of nonregulated status of soybean event DAS-81419-2, whereby soybean event DAS-81419-2 would no longer be subject to our regulations governing the introduction of certain GE organisms.

We are making available for a 30-day review period APHIS' preliminary regulatory determination of soybean event DAS-81419-2, along with our PPRA, EA, and preliminary FONSI for the preliminary determination of nonregulated status. The EA, preliminary FONSI, PPRA, and our preliminary determination for soybean event DAS-81419-2, as well as the DAS petition and the comments received on the petition, are available as indicated under **ADDRESSES** and **FOR FURTHER INFORMATION CONTACT** above. Copies of these documents may also be obtained from the person listed under **FOR FURTHER INFORMATION CONTACT**.

After the 30-day review period closes, APHIS will review and evaluate any information received during the 30-day review period. If, after evaluating the information received, APHIS determines that we have not received substantive new information that would warrant APHIS altering our preliminary regulatory determination or FONSI, substantially changing the proposed action identified in the EA, or substantially changing the analysis of impacts in the EA, APHIS will notify the public through an announcement on our Web site of our final regulatory determination. If, however, APHIS determines that we have received substantive new information that would warrant APHIS altering our preliminary regulatory determination or FONSI, substantially changing the proposed action identified in the EA, or substantially changing the analysis of impacts in the EA, then APHIS will notify the public of our intent to conduct additional analysis and to prepare an amended EA, a new FONSI, and/or a revised PPRA, which would be made available for public review through the publication of a notice of availability in the **Federal Register**. APHIS will also notify the petitioner.

Notice of Proposed New Fee Site; Federal Lands Recreation Enhancement Act

AGENCY: Uinta-Wasatch-Cache National Forest, USDA Forest Service.

ACTION: Notice of proposed new fee site.

SUMMARY: The Uinta-Wasatch-Cache National Forest is proposing to charge fee at The Upper Falls Picnic Site in Provo Canyon, Utah. The site will include a \$6.00 Standard Amenity fee that will be charged year-round. Fees are assessed based on the level of amenities and services provided, cost of operations and maintenance, and market assessment. Funds from fees would be used for the continued operation and maintenance and improvements of this picnic area.

An analysis of the nearby County, City, and Federal day-use sites with similar amenities shows that the proposed fees are reasonable and typical of similar sites in the area.

DATES: Comments will be accepted until April 1, 2014. New fees would begin September 1, 2014.

ADDRESSES: Dave Whittekiend, Forest Supervisor, Uinta-Wasatch-Cache National Forest, 857 West south Jordan Parkway, South Jordan, UT 84095-8594.

FOR FURTHER INFORMATION CONTACT: Matthew Lane, Recreation Fee Program Manager; Pleasant Grove Ranger District, 801-796-4891.

Dated: February 24, 2014.

Rural Housing Service

Notice of Request for Extension of a Currently Approved Information Collection

AGENCY: Rural Housing Service.

ACTION: Proposed collection; comments requested.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Rural Housing Service's intention to request an extension for a currently approved information collection in support of the program of the Agency's use of supervised bank accounts (SBA).

DATES: Comments on this notice must be received by May 2, 2014 to be assured of consideration.

FOR FURTHER INFORMATION CONTACT:

Janet Stouder, Deputy Director, Multi-Family Housing Portfolio Management Division, RHS, STOP 0782, U.S. Department of Agriculture, 1400 Independence Avenue SW., Washington, DC 20250-0782. Telephone: (202) 690-0760.

SUPPLEMENTARY INFORMATION:

Title: 7 CFR Part 1902-A, Supervised Bank Accounts.

OMB Number: 0575-0158.

Expiration Date of Approval: May 31, 2014.

Type of Request: Extension of a Currently Approved Information Collection.

Abstract: The Agency extends financial assistance to applicants that do not qualify for loans under commercial rates and terms.

The Agency use SBAs as a mechanism to (1) ensure correct disbursement and expenditure of all funds designated for a project; (2) help a borrower properly manage its financial affairs; (3) ensure that the Government's security is protected adequately from fraud, waste and abuse.

SBAs are mandatory for Multi-Family Housing (MFH) reserve accounts. The MFH funds must be kept in the SBA for the full term of a loan. Any funds withdrawn for disbursement for an authorized purpose require a countersignature from an Agency official.

This regulation prescribes the policies and responsibilities for the use of SBAs. In carrying out the mission as a supervised credit Agency, this regulation authorizes the use of supervised accounts for the disbursement of funds. The use may be necessitated to disburse Government
