

TABLE 2—ANNUAL BURDEN ESTIMATE

[Annualized burden estimates and costs—Mental Health Care Provider Education in HIV/AIDS Program (10 sites)]

Form	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden
All Sessions					
One form per session completed by program staff/trainer					
Session Report Form	600	1	600	0.08	48
Participant Feedback Form (General Education)	5,000	1	5,000	0.167	835
Neuropsychiatric Participant Feedback Form	4,000	1	4,000	0.167	668
Adherence Participant Feedback Form	1,000	1	1,000	0.167	167
Ethics Participant Feedback Form	2,000	1	2,000	0.167	125
Total	12,600	12,600	1,843

Written comments and recommendations concerning the proposed information collection should be sent by April 3, 2014 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202-395-7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: SAMHSA Recovery Measurement Pilot Study—NEW

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Behavioral Health Statistics and Quality (CBHSQ) is proposing a pilot test of its Recovery Measure. As part of its strategic initiative to support recovery from mental health and substance use disorders, SAMHSA has been working to develop a standard measure of recovery that can be used as part of its grantee performance reporting activities.

This project will assess the usability and psychometric properties of the proposed tool among a voluntary group of 2-3 SAMHSA grantees. SAMHSA has developed a short 20-item instrument that has been designed to capture all four of SAMHSA's proposed dimensions of recovery—health, home, purpose, and community. This measure is comprised of questions from the World Health Organization's Quality of Life tool (WHO QOL 8) and SAMHSA's existing set of Government Performance and Results Act (GPRA) measures. Data will be collected at two time points—at client intake and at six-months post-intake. These are two points in time during which SAMHSA grantees

routinely collect data on the individuals participating in their programs.

Approval of these items by the Office of Management and Budget (OMB) will allow SAMHSA to further refine the Recovery Measure developed for this project. It will also help determine whether the Recovery Measure is added to SAMHSA's set of required performance measurement tools designed to aid in tracking recovery among clients receiving services from the Agency's funded programs.

Based on current funding and planned fiscal year 2014 notice of funding announcements the following SAMHSA grantee programs will be selected to participate in this pilot study: Behavioral Health Treatment Court Collaborative (BHTCC); Cooperative Agreements to Benefit Homeless Individuals (CABHI); and the Primary and Behavioral Health Care Integration (PBHCI). Data collected will be used by individuals at three different levels: The SAMHSA administrator and staff, the Center administrators and government project officers, and grantees.

The total estimated respondent burden is 60 hours for the period from September 2014 through March 2015. Table 1 below indicates the annualized respondent burden estimate.

TABLE 1—ANNUALIZED RESPONDENT BURDEN HOURS, 2014–2015

[Estimated annual response burden]

Type of grantees	Number of respondents	Responses per respondent	Average hours per response	Total burden hours
Intake:				
Behavioral Health Treatment Court Collaborative (BHTCC)	100	1	0.10	10
Cooperative Agreements to Benefit Homeless Individuals (CABHI)	50	1	0.10	5

TABLE 1—ANNUALIZED RESPONDENT BURDEN HOURS, 2014–2015—Continued
[Estimated annual response burden]

Type of grantees	Number of respondents	Responses per respondent	Average hours per response	Total burden hours
Primary and Behavioral Health Care Integration (PBHCI)	150	1	0.10	15
6-Month Follow-up:				
Behavioral Health Treatment Court Collaborative (BHTCC)	100	1	0.10	10
Cooperative Agreements to Benefit Homeless Individuals (CABHI)	50	1	0.10	5
Primary and Behavioral Health Care Integration (PBHCI)	150	1	0.10	15
Total	300	60

Written comments and recommendations concerning the proposed information collection should be sent by April 3, 2014 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB’s receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: *OIRA_Submission@omb.eop.gov*. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202–395–7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

Project: 2014–2017 National Survey on Drug Use and Health: Methodological Field Tests (OMB No. 0930–0110)—Extension

The National Survey on Drug Use and Health (NSDUH) is a survey of the U.S. civilian, non-institutionalized population aged 12 years old or older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, the Office of National Drug Control Policy (ONDCP), Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

Methodological tests will continue to be designed to examine the feasibility, quality, and efficiency of new procedures or revisions to existing survey protocol. Specifically, the tests will measure the reliability and validity of certain questionnaire sections and items through multiple measurements on a set of respondents; assess new methods for gaining cooperation and participation of respondents with the goal of increasing response and decreasing potential bias in the survey estimates; and assess the impact of new sampling techniques and technologies on respondent behavior and reporting. Research will involve focus groups, cognitive laboratory testing, customer satisfaction surveys, and field tests.

These methodological tests will continue to examine ways to increase data quality, lower operating costs, and gain a better understanding of sources and effects of nonsampling error on the NSDUH estimates. Particular attention will be given to minimizing the impact of design changes so that survey data continue to remain comparable over time. If these tests provide successful results, current procedures or data collection instruments may be revised.

The number of respondents to be included in each field test will vary, depending on the nature of the subject being tested and the target population.

However, the total estimated response burden is 8,225 hours. The exact number of subjects and burden hours for each test are unknown at this time, but will be clearly outlined in each individual submission. These estimated burden hours are distributed over three years as follows:

TABLE 1—ESTIMATED BURDEN FOR NSDUH METHODOLOGICAL FIELD TESTS

Time period	Respondent burden hours
May 2014 to May 2015	2,742
May 2015 to May 2016	2,742
May 2016 to May 2017	2,741
Total	8,225
