

noncountervailable in the *Twelfth Administrative Review*.⁶ In the instant review, we reviewed relevant excerpts of Law 56/87 provided by the GOI and, in the Post-Preliminary Analysis, we found that Law 56/87 does not, in and of itself, establish a subsidy program or provide for subsidy benefits beyond those already authorized by Law 25/55.⁷ Because Law 56/87 merely modifies some provisions of Law 25/55, and because Law 25/55 and Legislative Decree 276/03 were previously found to be noncountervailable, we found in the Post-Preliminary Analysis that Law 56/87 is similarly non-countervailable.⁸ No information has been submitted causing us to make a different determination. Therefore, we continue to do so for these final results.

PON Program

In the *Preliminary Results*, we stated that we intended to seek additional information from the GOI to confirm whether Tomasello received funds under Piano Operativo Nazionale (National Operating Plan) (PON Program) in the POR, and would address this program in a post-preliminary analysis. As noted in the Post-Preliminary Analysis, the GOI confirmed that Tomasello did not receive funding under this program during the POR.⁹ Therefore, we found that Tomasello did not use this program during the POR.¹⁰ We continue to do so for these final results.

Training Grants from the Fondo Impresa

While Delverde received grants from the Fondo Impresa during 2011 and 2012,¹¹ we found that this program did not result in a measurable benefit during the POR.¹² Accordingly, it was not necessary to analyze whether the program satisfies the other elements of a countervailable subsidy under section 771(5) of the Act.¹³ We continue to

reach the same conclusion for these final results.

Changes Since the Preliminary Results Law 46/82

In preliminarily calculating the benefit for this program, we did not adjust our calculation methodology to reflect the number of days of the interest payment period Tomasello reported because we were not certain that the information requested had been properly reported. However, after we issued the *Preliminary Results*, Tomasello confirmed that it had correctly reported the number of days between interest payments for this loan.¹⁴ We have modified the calculation to properly account for the number of days between interest payments confirmed by Tomasello, thereby changing the subsidy rate for this program from 0.12 percent to 0.13 percent.¹⁵

Final Results of Review

For the period January 1, 2011, through December 31, 2011, we find the *ad valorem* net subsidy rate for Delverde, Tomasello, and Valdigrano to be:

Producer/exporter	Net subsidy rate
Delverde Industrie Alimentari S.p.A..	0.42 (<i>de minimis</i>).
Molino e Pastificio Tomasello S.p.A..	1.83
Valdigrano di Flavio Pagani S.r.L..	0.35 (<i>de minimis</i>).

Assessment Rates

Consistent with 19 CFR 351.212(b), the Department intends to issue assessment instructions to U.S. Customs and Border Protection (CBP) fifteen days after the date of publication of these final results. The Department will instruct CBP to assess countervailing duties on POR entries in the amounts shown above, except that entries of merchandise produced and/or exported by both Delverde and Valigrano will be liquidated without regard to countervailing duties because their subsidy rates are *de minimis*.

Cash Deposit Instructions

The Department intends to instruct CBP to collect cash deposits of estimated countervailing duties in the

amounts shown above on shipments of the subject merchandise entered or withdrawn from warehouse for consumption on or after the date of publication of these final results in the amounts shown above, except that cash deposits of zero percent will be required for entries from Delverde and Valdigrano because their subsidy rates are *de minimis*.

For all non-reviewed firms (except Barilla G. e R. F.lli S.p.A. and Gruppo Agricoltura Sana S.r.l., which are excluded from the order,¹⁶ and Pasta Lensi S.r.l. which was revoked from the order),¹⁷ we will instruct CBP to continue to collect cash deposits of estimated countervailing duties at the most recent company-specific or all-others rate applicable to the company.

These cash deposit requirements shall remain in effect until further notice.

Administrative Protective Order

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: On November 22, 2013, NMFS published a notice inviting qualified commercial shark permit holders to submit applications to participate in the 2014 shark research fishery. The shark research fishery allows for the collection of fishery-dependent data for future stock assessments and cooperative research with commercial fishermen to meet the shark research objectives of the Agency. Every year, the permit terms and permitted activities (e.g., number of hooks and trips, retention limits) specifically authorized for selected participants in the shark research fishery are designated depending on the scientific and research needs of the Agency, as well as the number of NMFS-approved observers available. In order to inform selected participants of this year's specific permit requirements and ensure all terms and conditions of the permit are met, NMFS is holding a mandatory permit holder meeting (via conference call) for selected participants. The date and time of that meeting is announced in this notice.

DATES: A conference call will be held on March 18, 2014.

ADDRESSES: A conference call will be conducted. See **SUPPLEMENTARY INFORMATION** for information on how to access the conference call.

FOR FURTHER INFORMATION CONTACT: Karyl Brewster-Geisz or Delisse Ortiz at (301) 427-8503.

SUPPLEMENTARY INFORMATION: The Atlantic shark fisheries are managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The 2006 Consolidated Highly Migratory species (HMS) Fishery Management Plan (FMP) is implemented by regulations at 50 CFR part 635.

The final rule for Amendment 2 to the 2006 Consolidated HMS FMP (73 FR 35778, June 24, 2008, corrected at 73 FR 40658, July 15, 2008) established, among other things, a shark research fishery to maintain time-series data for stock assessments and to meet NMFS' research objectives. The shark research fishery gathers important scientific data and allows selected commercial fishermen the opportunity to earn more revenue from selling the sharks caught, including sandbar sharks. Only the commercial shark fishermen selected to participate in the shark research fishery are authorized to land/harvest sandbar sharks subject to the sandbar quota

available each year. The 2014 sandbar shark quota is 116.6 mt dw per year. The selected shark research fishery participants also have access to the research large coastal shark, small coastal shark, and pelagic shark quotas subject to retention limits and quotas per §§ 635.24 and 635.27, respectively.

On November 22, 2013 (78 FR 70018), we published a notice inviting qualified commercial shark directed and incidental permit holders to submit an application to participate in the 2014 shark research fishery. We received 13 applications, of which 12 applicants were determined to meet all the qualifications. From the 12 qualified applicants, we randomly selected 5 participants after considering how to meet research objectives in particular regions. NMFS expects to invite qualified commercial shark permit holders to submit an application for the 2015 shark research fishery later this year.

As with past years, the 2014 permit terms and permitted activities (e.g., number of hooks and trips, retention limits) specifically authorized for selected participants in the shark research fishery were designated depending on the scientific and research needs of the Agency as well as the number of NMFS-approved observers available. In order to inform selected participants of this year's specific permit requirements and ensure all terms and conditions of the permit are met, per the requirements of § 635.32(f)(4), we are holding a mandatory permit holder meeting via conference call.

Conference Call Date, Time, and Dial-in Number

The conference call will be held on March 18, 2014, from 1:30 to 3:30 p.m. (EST). Participants and interested parties should call 888-790-3083 and use the passcode 7622417. Selected participants who do not attend will not be allowed to participate in the shark research fishery. While the conference call is mandatory for selected participants, other interested parties may call in and listen to the discussion.

Selected participants are encouraged to invite their captain, crew, or anyone else who may assist them in meeting the terms and conditions of the shark research fishery permit.
