

Two sites at the installation would be used to store the WTVs. The Primary Vehicle Storage Site is a 5.3-acre gravel lot located south of Buildings 3 and 4. If the Primary Vehicle Storage Site reaches capacity, additional WTVs could be stored at the Secondary Vehicle Storage Site which is a 21-acre gravel lot located west of Building 54. A maximum of 2,500 vehicles would be stored on the installation at any one time. A chain-link fence would be installed around each proposed WTV storage site and signposts mounted on cinderblocks (or similar) would be placed inside the proposed WTV storage sites to designate storage locations.

The WTVs would be stored in a running state suitable for sale and, as such, would contain batteries and all fluids. Absorbent pads would be placed beneath the WTVs and DLA Disposition Services staff would perform weekly inspections of the WTVs and absorbent pads. Only emergency maintenance necessary to stop leaks or repair inoperable vehicles would be conducted.

The WTVs would be shipped by tractor-trailer from the installation (via Road "A" and the North Gate) as they are sold or sent off-site for demilitarization. WTV parking spaces freed up by departing WTVs would be available for incoming vehicles.

Description of the No Action Alternative: Under the No Action Alternative, DLA would not receive, store and ship WTVs at DSCR. In general, implementation of the No Action Alternative would mean that DLA would not have a common location for these WTVs awaiting sale or demilitarization. The WTVs would stay in their current locations at various military installations which would lead to inefficiencies and difficulties in selling the vehicles. As such, they would not be able to be screened, reconciled or inspected in a timely manner. The No Action Alternative would not meet the purpose of and need for the Proposed Action.

Potential Environmental Impacts: No significant effects on environmental resources would be expected from the Proposed Action. Insignificant, adverse effects on noise, air quality, geological resources, water resources, transportation and hazardous materials and waste would be expected. The adverse effects would be short-term, lasting only for the duration of the Proposed Action. Details of the environmental consequences were discussed in the EA which is hereby incorporated by reference.

Determination: DLA has determined that implementation of the Proposed

Action will not have a significant effect on the human environment. Human environment was interpreted comprehensively to include the natural and physical environment and the relationship of people with that environment. Specifically, no highly uncertain or controversial impacts, unique or unknown risk or cumulatively significant effects were identified. Implementation of the Proposed Action will not violate any federal, state or local laws. Based on the results of the analyses performed during the preparation of the environmental assessment, David Rodriguez, Director, DLA Installation Support, concludes that temporary storage of wheeled tactical vehicles at Defense Supply Center Richmond, Virginia, does not constitute a major federal action significantly affecting the quality of the human environment within the context of NEPA. Therefore, an environmental impact statement for the proposed action is not required.

Defense Health Board; Notice of Federal Advisory Committee Meeting; Cancellation

AGENCY: Department of Defense (DoD).

ACTION: Notice of Federal Advisory Committee meeting; cancellation.

SUMMARY: On Thursday, February 13, 2014 (79 FR 8683-8684), the Department of Defense published a notice announcing a meeting of the Defense Health Board (DHB), which was scheduled to take place as a webcast on Monday, March 3, 2014. This notice announces the cancellation of the March 3, 2014 meeting. Due to the inclement weather and the government's decision to close Federal offices in the Washington, DC area, the scheduled DHB meeting on March 3, 2014 is cancelled. Due to the closure of Federal offices in the Washington DC area, this notice of meeting cancellation could not be published before the date of the meeting that is now cancelled.

FOR FURTHER INFORMATION CONTACT: Ms. Christine Bader, *Christine.bader@dha.mil*, (703) 681-6653 or Ms. Kendal Brown, *Kendal.Brown.ctr@dha.mil*, (703) 681-6670.

SUPPLEMENTARY INFORMATION:

Meeting Announcement: Due to inclement weather and the government's decision to close Federal offices in the Washington, DC area, the Defense Health Board's designated federal officer was unable to provide public cancellation notification in sufficient time for the previously scheduled Defense Health Board meeting for March 3, 2014, as required by 41 CFR 102-3.150(a). Accordingly, the Advisory Committee Management Officer for the Department of Defense, pursuant to 41 CFR 102-3.150(b), waives the 15-calendar day cancellation notification requirement.

Dated: March 5, 2014.
