

pursuant to regulations issued by the Council on Environmental Quality (CEQ) for implementing the procedural provisions of the National Environmental Policy Act (NEPA; 40 CFR parts 1500–1508) and to NOAA's Administrative Order 216–6 regarding NOAA's compliance with NEPA and the CEQ regulations.

The Council and NMFS will consider public comments received on the DEIS in developing the final environmental impact statement (FEIS), and before voting to submit the FMP to NMFS for Secretarial review, approval, and implementation.

NMFS will announce in the **Federal Register** the availability of the FMP for public review during the Secretarial review period. During Secretarial review, NMFS will also file the FEIS with the EPA for a final 30-day public comment period. This comment period will be concurrent with the Secretarial review period and will end prior to final agency action to approve, disapprove, or partially approve the FMP.

NMFS will announce in the **Federal Register**, all public comment periods on the FMP, its proposed implementing regulations, and the associated FEIS. NMFS will consider all public comments received during the Secretarial review period, whether they are on the FMP, the proposed regulations, or the FEIS, prior to final agency action.

Notice of Availability (NOA) for Temporary Storage of Wheeled Tactical Vehicles (WTV) at Defense Supply Center Richmond, Virginia, Environmental Assessment (EA) Finding of No Significant Impact (FONSI)

AGENCY: Defense Logistics Agency, Department of Defense.

ACTION: Notice of Availability (NOA) for Temporary Storage of Wheeled Tactical Vehicles (WTV) at Defense Supply Center Richmond, Virginia, Environmental Assessment (EA) Finding of No Significant Impact (FONSI).

SUMMARY: On December 27, 2013, Defense Logistics Agency (DLA) published a NOA in the **Federal Register** (78 FR 78943) announcing the publication of the Temporary Storage of WTVs at Defense Supply Center Richmond, Virginia, EA. The EA was available for a 30-day public comment period which ended January 26, 2014. The EA was prepared as required under the National Environmental Policy Act (NEPA), (1969). In addition, the EA complied with DLA Regulation (DLAR) 1000.22. DLA received a comment from the Virginia Department of Environmental Quality (DEQ). The agency has reviewed the comment and is in accord with many of the DEQ recommendations and will continue to

work with DEQ in successfully managing the temporary storage of the WTVs. This FONSI documents the decision of DLA to temporarily store wheeled tactical vehicles at Defense Supply Center Richmond, Virginia. DLA has determined that the proposed action was not a major federal action significantly affecting the quality of the human environment within the context of NEPA and that no significant impacts on the human environment are associated with this decision.

FOR FURTHER INFORMATION CONTACT: Ann Engelberger at (703) 767-0705 during normal business hours Monday through Friday, from 8:00 a.m. to 4:30 p.m. (EST) or by email: Ann.Engelberger@dla.mil.

SUPPLEMENTARY INFORMATION: The Defense Logistics Agency (DLA) completed an environmental assessment (EA) to address the potential environmental consequences associated with the temporary storage of wheeled tactical vehicles (WTVs) at Defense Supply Center Richmond (DSCR), Virginia. The FONSI incorporates the EA by reference and summarizes the results of the analysis in the EA.

Purpose and Need for Action: The Proposed Action is needed to provide a common location for the temporary storage of fully functional WTVs that are no longer required by the United States military. These WTVs would be staged for sale or for off-site demilitarization. DLA does not currently have a storage site for these surplus wheeled tactical vehicles and needs a storage site that can be ready to accept these vehicles in early 2014. Defense Supply Center Richmond (DSCR), Virginia, has space available for the temporary storage of the vehicles and the space does not require time and material intensive modifications.

Proposed Action and Alternatives: Under the Proposed Action, DLA would store WTVs temporarily at DSCR for up to three years beginning in early 2014. Approximately 600 to 2,500 WTVs would be stored at the installation at any one time. Assuming 100 percent turnover every 1.5 years, a total of 1,200 to 5,000 WTVs would be cycled through the installation over a three-year period. The WTVs would be shipped to the installation from multiple continental United States military installations via flat-bed or low-boy tractor-trailers. Delivery of the WTVs would be spread out to reduce the impact on traffic and would occur during regular work week hours. The tractor-trailers would arrive and depart through the installation's North Gate and access the proposed WTV storage sites via Road "A."
