Court Services and Offender Supervision Agency Proposed New Record System Under the Privacy Act of 1974

SYSTEM NAME:

CSOSA Competency Assessment Tool.

SYSTEM LOCATION:

Court Services and Offender Supervision Agency (CSOSA), Office of Human Resources, 655 15th St. NW., Suite 800, Washington, DC 20005. Records pertaining to core competency assessments of designated staff are located on CSOSA's servers and/or those of an authorized vendor. Records pertaining to pre-determined core competencies (e.g., leadership) may be forwarded to authorized/designated staff within CSOSA.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

CSOSA's current and former employees, and authorized vendors whom have accessed or completed the CSOSA Competency Assessment Tool.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system will contain personal information and supervisor assessments and an employee's own self-assessments of staff leadership skills and other core competencies according to established proficiency scales similar to or the Likert Scale. The assessments are tied to a master account that contains demographic data to help determine participation.

The personal demographic information in the system may include but are not limited to the following:

- a. Employee's CSOSA email address.
- b. First and last name.
- c. Office/Branch/Unit to which the employee is assigned.
- d. Pay plan.
- e. Grade.
- f. Occupational series/family.
- g. Occupational Specialty
- h. Work role, if applicable (e.g., manager, supervisor, team lead).
- i. Work telephone.
- j. Estimated years until retirement.
- k. Tenure in current position.
- l. Tenure with CSOSA.

Self-assessment information includes the employee's determination of his/her proficiency level against a set of leadership skills and other competencies using an established proficiency scale like the Likert scale. The assessment by the supervisor includes the supervisor's determination of an employee's proficiency level and the desired proficiency level of the targeted positions using the same set of competencies and proficiency scales.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM INCLUDES THE FOLLOWING WITH ANY REVISIONS OR AMENDMENTS:

5 U.S.C. 1103(c)(2)(A) and (B), 5 U.S.C. 1402(a)(6), 5 U.S.C. 4117.

Additional authorities include:

Executive Order 9830—Amending the Civil Service Rules and providing for Federal personnel administration Feb. 24, 1947.

Executive Order 13197—Government-wide Accountability for Merit System Principles; Workforce Information January 18, 2001.

PURPOSE:

The purpose of the new electronic system is to establish, maintain and help to facilitate the career management of CSOSA employees. The CSOSA Competency Assessment Tool is an online and/or computer-based instrument for assessing the proficiency levels of CSOSA employees in key competencies. The computer tool allows an employee to conduct a competency self-assessment and supervisors to assess the competencies of their employees to determine competency strengths and areas for improvement. CSOSA can use the results of the assessments to support its skills gap analyses, succession management, workforce planning, and training and development efforts.

14. To provide reports to authorized CSOSA officials and staff on aggregate level data of proficiency levels in identified competencies across the Agency.

15. To provide specific raw data reports to authorized CSOSA officials and staff on individual-level data related to proficiency levels in identified competencies.

16. To disclose aggregate level data from the CSOSA Competency Assessment Tool via an agency-wide report.

17. To authorized contractors, vendors, grantees, or volunteers performing or working on a contract, service, grant, cooperative agreement, or job for CSOSA or the Federal government that is in the performance of a Federal duty to which the information is deemed relevant.

POLICIES AND PRACTICES OF STORING, RETRIEVING, SAFEGUARDING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained in an electronic relational database management system hosted on CSOSA's electronic network servers and/or through Survey Monkey, a GSA approved vendor's Internet server, accessed via a password-restricted system. Duplicate records also exist on magnetic backup tapes maintained by agency servers or on Survey Monkey.

RETRIEVABILITY:

Authorized CSOSA personnel can retrieve system records by using the employee's name and employee identification number. Authorized personnel can aggregate the results of individual and supervisor assessments and create reports, without specifically identifying individuals. Authorized personnel can also retrieve system records that produce raw data reports that will contain the identity of individuals. An employee can retrieve their own information and individual reports (which contain a record of how the individuals assessed themselves, along with how the supervisor assessed the position) using their name and employee identification number. All system records are accessed through the agency's computer network and/or a GSA approved Internet service provider through a password-restricted system.

SAFEGUARDS:

These records are maintained in controlled access areas. Identification cards are verified to ensure that only authorized personnel are present. Electronic records are protected by restricted access procedures, including the use of passwords and sign-on protocols which are periodically changed. Only employees whose official duties require access are allowed to view, administer, and control these records. The database will be maintained behind a firewall maintained by Survey Monkey, a GSA certified internet server provider, and the agency's own firewall software programs.

RETENTION AND DISPOSAL:

System records are retained and disposed of according to CSOSA's records maintenance and disposition schedules and the requirements of the National Archives and Records Administration. Any attempts to complete and completed competency assessments are archived to a computerized storage disk nightly and retained on the agency's backup

computer network server for five years. When records are purged from the agency's computer server, the records are transferred to a Compact Disc (CD) or other electronic media. Records in electronic media are electronically erased. CD or other electronic media are maintained for five years.
