ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R07-OAR-2014-0118; FRL-9907-77-Region 7]

Approval and Promulgation of Implementation Plans; State of Iowa

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: Environmental Protection Agency (EPA) is approving revisions to the State Implementation Plan (SIP) for the State of Iowa. These revisions will amend the SIP to include revisions to Iowa air quality rule, Chapter 33, "Special Regulations and Construction Permit Requirements for Major Stationary Sources—Prevention of Significant Deterioration (PSD) of Air Quality." This rule amendment makes the state regulation consistent with the Federal regulation for the fine Particulate Matter (PM_{2.5}) PSD program. This revision will amend source obligation provisions as they apply to recordkeeping and will provide a mechanism to allow industry to request rescission of a PSD permit, both of which match the Federal regulations. This action is also consistent with the state's request to not include, into the SIP, provisions relating to Significant Impact Levels (SILs) and Significant Monitoring Concentrations (SMCs). These provisions were vacated and remanded by the U.S. Court of Appeals for the District of Columbia on January 22, 2013.

DATES: This direct final rule will be effective May 13, 2014, without further notice, unless EPA receives adverse comment by April 14, 2014. If EPA receives adverse comment, we will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R07-OAR-2014-0118, by one of the following methods:

Do not submit through *www.regulations.gov* or email information that you consider to be CBI or otherwise protected. The *www.regulations.gov* Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through *www.regulations.gov*, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. I. What is being addressed in this document?

EPA is approving revisions into the SIP to include amendments to the Iowa air quality rules as they apply to Prevention of Significant Deterioration (PSD) of Air Quality.

The rules are amended to correspond with the Federal regulation for implementation of the PM_{2.5} PSD program as identified in 40 CFR 52.21.

The following definitions are revised to match the Federal regulation: Baseline area; baseline date; enforceable permit condition; Federally enforceable; regulated New Source Review (NSR) pollutant, and significant.

Revisions adopted by reference include ambient air increments that include thresholds for PM_{2.5}, PSD exemptions to incorporate PM_{2.5}, source impact analysis requirements to include PM_{2.5}, and requirements for sources that impact Federal Class I areas to include PM_{2.5}. Source obligation provisions are revised to match current Federal PSD regulations. This revision also clarifies the conditions whereby source owners and operators must keep records and the specific records that must be kept. For the purposes of record keeping, the Federal definition of "reasonable possibility" has been added. A rule has been added to establish provisions for rescinding a PSD permit and is commensurate with the Federal provisions.

This action is also consistent with the state's request to not include the SIP provisions relating to Significant Impact Levels and Significant Monitoring Concentrations. On January 22, 2013, the U.S. Court of Appeals for the District of Columbia vacated and remanded the provisions at 40 CFR 51.166(k)(2) and
