Finally, in accordance with 7 CFR 3016.42, state departments of agriculture must retain all records relating to these organic cost-share programs for a period of three years after the final Federal Financial Report has been submitted to the Federal Agency, or until final resolution of any audit finding or litigation, whichever is later. Electronic records retention is acceptable. This is a part of normal business practice.

(g) Producers and/or handlers who wish to participate in these organic certification cost-share programs must submit the following to a given state agency once per year: An application, proof of USDA organic certification, an itemized invoice showing expenses paid to a third-party certifying agent for certification services, and a W-9 tax form. Based on past program participation (7,245 participants in NOCCSP and 2,348 participants in AMA last fiscal year), we believe between 10,000 and 12,000 producers or handlers will participate in these programs.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Organic producers or handlers.

Estimated Number of Respondents: 12,000.

Estimated Total Annual Responses: 12,000 responses.

These programs will not be maintained by any other agency, therefore, the requested information will not be available from any other existing records.

AMS is committed to compliance with the Government Paperwork Elimination Act (GPEA) (44 U.S.C. 3540 note), which requires Government agencies in general to provide the public the option of submitting information or transacting business electronically to the maximum extent possible. The SF-424 can be completed electronically and is required to be submitted electronically through www.grants.gov.

The SF-425 and SF-270 forms can be filled out electronically and submitted

electronically. The USDA/AMS-33 Face Page requires an original signature and must be submitted by mail. Producers typically will mail their application and associated documentation to the state agencies, though some agencies have streamlined paperwork submission through databases of producers and handlers in a given state.
