## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-71725; File No. SR-NSCC-2014-03]

### Self-Regulatory Organizations; National Securities Clearing Corporation ("NSCC"); Notice of Filing of Proposed Rule Change To Enhance the System That Processes Corporate Actions Within NSCC's Continuous Net Settlement ("CNS") System

March 14, 2014.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934

("Act")<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on March 6, 2014, National Securities Clearing Corporation ("NSCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared by NSCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change consist [sic] of amendments to the Rules & Procedures ("Rules") of NSCC to enhance the system that processes corporate actions within NSCC's Continuous Net Settlement ("CNS") system, as more fully described below.

#### II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NSCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NSCC has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

##### (A) Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

NSCC has recently enhanced the system that applies corporate actions to Members' open failed positions within CNS. While the enhancements to corporate action processing would not require NSCC Members to make any coding changes, NSCC is proposing to update Procedure VII of its Rules in order to reflect these enhancements.

One of NSCC's core service as a central counterparty is trade clearance and settlement through CNS, where compared and recorded transactions in eligible securities<sup>3</sup> for a particular settlement date are netted by issue into one net long (buy) or net short (sell)

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> To be CNS-eligible, a security must be eligible for book-entry transfer on the books of The Depository Trust Company ("DTC"), an NSCC affiliate, and must be capable of being processed in the CNS system; for example, securities may be ineligible for CNS processing due to certain transfer restrictions (i.e., 144A securities) or due to the pendency of certain corporate actions.

position. As a continuous net system, those positions are further netted with positions of the same issue that remain open after their originally scheduled settlement date (usually T+3), so that trades scheduled to settle on any day are netted with fail positions to result in a single deliver or receive obligation for each Member for each issue in which it has activity. As part of the services offered to NSCC Members, certain corporate actions, including cash dividends, stock dividends, bond interest, and other mandatory corporate actions (which include redemptions, stock and cash mergers, and name changes) are automatically debited or credited to Member's CNS accounts with open fail positions in CNS. Members are also permitted to take part in certain voluntary corporate actions, which include tender or exchange offers, with respect to open fail positions in CNS.

Enhancements to the processing of corporate actions within CNS, described below, would provide Members with more timely and detailed information regarding applicable corporate action events, would support additional corporate action events, and would provide short Members (i.e. Members that have failed to deliver securities to CNS) with information on their final liability on the same day that liability is applied to their CNS account. The proposed enhancements would also provide NSCC staff with an improved ability to monitor and process voluntary corporate action events. These enhancements are reflected in the proposed rule changes on Exhibit 5<sup>4</sup> hereto and are described below.

##### Optional Dividends

When a fail position in CNS is subject to a dividend payment, the issuer will specify the form in which that dividend will be paid (i.e. in securities or cash), called the "default option". NSCC long Members (i.e. Members that have failed to receive securities from CNS) may elect a form of payment that differs from the default option by submitting an instruction to NSCC no later than a pre-set date and cut-off time. While these elections are submitted manually today, under the enhancements to the processing of corporate actions, these elections would be submitted to NSCC electronically.

Today, NSCC sets a cut-off time that is based on the cut-off time set by DTC for the submission of these instructions.
