

exemption from 10 CFR 50.71(e)(3)(iii) would provide relief during the suspension of review work. Since Luminant has made good faith efforts to comply with the regulation, the special circumstances required by 10 CFR 50.12(a)(2) for the granting of an exemption from 10 CFR 50.71(e)(3)(iii) exist.

Eligibility for Categorical Exclusion From Environmental Review

With respect to the exemption's impact on the quality of the human environment, the NRC has determined that this specific exemption request is eligible for categorical exclusion as identified in 10 CFR 51.22(c)(25) and justified by the NRC staff as follows:

(c) The following categories of actions are categorical exclusions:

(25) Granting of an exemption from the requirements of any regulation of this chapter, provided that—

(i) There is no significant hazards consideration;

The criteria for determining whether there is no significant hazards consideration are found in 10 CFR 50.92. The proposed action involves only a schedule change regarding the submission of an update to the application for which the licensing review has been suspended. Therefore, there is no significant hazards consideration because granting the proposed exemption would not:

(1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or

(2) Create the possibility of a new or different kind of accident from any accident previously evaluated; or

(3) Involve a significant reduction in a margin of safety.

(ii) There is no significant change in the types or significant increase in the amounts of any effluents that may be released offsite;

The proposed action involves only a schedule change which is administrative in nature, and does not involve any changes to be made in the types or significant increase in the amounts of effluents that may be released offsite.

(iii) There is no significant increase in individual or cumulative public or occupational radiation exposure;

Since the proposed action involves only a schedule change which is administrative in nature, it does not contribute to any significant increase in occupational or public radiation exposure.

(iv) There is no significant construction impact;

The proposed action involves only a schedule change which is administrative in nature; the application

review is suspended until further notice, and there is no consideration of any construction at this time, and hence the proposed action does not involve any construction impact.

(v) There is no significant increase in the potential for or consequences from radiological accidents; and

The proposed action involves only a schedule change which is administrative in nature, and does not impact the probability or consequences of accidents.

(vi) The requirements from which an exemption is sought involve:

(B) Reporting requirements;

The exemption request involves submitting an updated FSAR by Luminant and

(G) Scheduling requirements;

The proposed exemption relates to the schedule for submitting FSAR updates to the NRC.

4.0 Conclusion

Accordingly, the NRC has determined that, pursuant to 10 CFR 50.12(a), a one-time exemption is authorized by law and will not present an undue risk to the public health and safety, and is consistent with the common defense and security. Also, special circumstances are present. Therefore, the NRC hereby grants Luminant a one-time exemption from the requirements of 10 CFR 50.71(e)(3)(iii) pertaining to the CPNPP, Units 3 and 4, COLA to allow the submittal of the FSAR update scheduled for November 2014, on or before November 30, 2015 and to submit the subsequent FSAR annual update in November 2016.

Pursuant to 10 CFR 51.22, the Commission NRC has determined that the exemption request meets the applicable categorical exclusion criteria set forth in 10 CFR 51.22(c)(25), and the granting of this exemption will not have a significant effect on the quality of the human environment.

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 13th day of March 2014.

Chief, Licensing Branch 2, Division of New Reactor Licensing, Office of New Reactors.

I. Introduction

On March 14, 2014, the Postal Service filed notice, pursuant to 39 CFR 3010.40 *et seq.*, of a Type 2 rate adjustment and the filing of a related negotiated service agreement with China Post Group involving the inbound portion of a multi-product bilateral agreement (2014 Agreement).¹ The Postal Service requests that the Commission include the 2014 Agreement within the Inbound Market Dominant Multi-Service Agreements with Foreign Postal Operators (MC2010–35, R2010–5, and R2010–6) (Foreign Postal Operators 1) product. *Id.* at 13.

II. Contents of Filing

The Postal Service's filing consists of the Notice, two attachments, and redacted and unredacted versions of an Excel file with supporting financial workpapers. *Id.* at 2. Attachment 1 is an application for non-public treatment of material filed under seal with the Commission. *Id.* Attachment 2 is a redacted copy of the 2014 Agreement. *Id.*

The Notice identifies May 1, 2014 as the intended effective date of the 2014 Agreement and June 30, 2015 as the expiration date. *Id.* at 11. The Notice asserts that the requisite 45 days' advance notice is being provided; identifies a Postal Service official as a contact for further information; and

identifies the parties to the Agreement as the United States Postal Service and China Post Group, the postal operator for China. *Id.* at 2–4. The Notice states that the Agreement includes delivery confirmation scanning with Letter Post small packets, a service also included in the China Post 2010, China Post 2011, and China Post 2013 Agreements. *Id.* at 4. However, it states that the 2014 Agreement includes two versions of inbound scanning with small packets: China to United States Small Packet with Delivery Scanning Dispatched by China EMS (the subject of Annex 2) and China to United States Small Packet with Delivery Scanning Dispatched by China Letter Post (the subject of Annex 10). *Id.* It asserts that the two versions acknowledge the roles of, differentiate processing by, and improve settlement procedures in relation to the two entities within China Post that dispatch inbound delivery confirmation scanning with small packets. *Id.*

The Notice states that the financial workpapers address the expected financial improvements, costs, volumes, and revenues; describes several operational improvements; and provides reasons why the 2014 Agreement will not result in unreasonable harm to the marketplace. *Id.* at 4–7.
