## NATIONAL SCIENCE FOUNDATION

### Understanding the Spectrum Environment: Using Data and Monitoring To Improve Spectrum Utilization

**AGENCY:** The National Coordination Office (NCO) for Networking and Information Technology Research and Development (NITRD).

**ACTION:** Notice.

**FOR FURTHER INFORMATION CONTACT:**

Wendy Wigen at 703-292-4873 or [wigen@nitrd.gov](mailto:wigen@nitrd.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

**DATES:** March 31, 2014.

**SUMMARY:** Representatives from Federal research agencies, private industry, and academia will identify R&D in the area of data and monitoring that will promote progress toward more efficient spectrum utilization and sharing.

**SUPPLEMENTARY INFORMATION:**

*Overview:* This notice is issued by the National Coordination Office for the Networking and Information Technology Research and Development (NITRD) Program. Agencies of the NITRD Program are holding the fifth in a series of workshops to bring together experts from private industry and academia to help identify spectrum data and monitoring research that will accelerate the progress toward more efficient spectrum utilization and sharing. The workshop will take place on March 31, 2014, from 9:00 a.m. to 6:00 p.m. ET at the National Science

Foundation, Room II-555, 4201 Wilson Blvd., Arlington, VA 22230. This event will be Web cast. The event agenda and information about the Web cast will be available the week of the event at: [http://www.nitrd.gov/nitrdgroups/index.php?title=Wireless\\_Spectrum\\_Research\\_and\\_Development\\_\(WSRD\)#title](http://www.nitrd.gov/nitrdgroups/index.php?title=Wireless_Spectrum_Research_and_Development_(WSRD)#title).

*Background:* The Presidential Memorandum on Unleashing the Wireless Broadband Revolution, released on June 28, 2010, directed the federal agencies to work together and with the non-federal community, including the academic, commercial, and public safety sectors, to create and implement a plan that “facilitates research, development, experimentation, and testing by researchers to explore innovative spectrum-sharing technologies.”

The WSRD has held four workshops that addressed the challenge defined in that Presidential Memorandum. During WSRD’s first Workshop held at Boulder, CO, in July 2011, the participants indicated that a national-level testing environment is critical for validating spectrum sharing technology under realistic conditions; they also emphasized the value of a spectrum sharing testing environment for a diversity of users. At a second workshop, held in Berkeley, CA, in January 2012, key concepts and criteria were established for spectrum sharing test and evaluation capabilities. The third workshop, held in Boulder, CO, in July 2012, identified realistic projects whose implementation will significantly support the plan to meet the Presidential Memorandum’s goals. The fourth workshop, held in Cambridge, MA, in April 2013, resulted in recommendations for the economic and policy research that is needed to promote an efficient and shared spectrum environment. This workshop will focus on new opportunities for understanding the spectrum environment presented by improvements in monitoring and data analysis.

Submitted by the National Science Foundation for the National Coordination Office (NCO) for Networking and Information Technology Research and Development (NITRD) on March, 18, 2014.

## NEIGHBORHOOD REINVESTMENT CORPORATION

### Regular Board of Directors Meeting; Sunshine Act

**TIME & DATE:** 10:00 a.m., Thursday, March 27, 2014.

**PLACE:** NeighborWorks America—Gramlich Boardroom, 999 North Capitol Street NE., Washington DC 20002.

**STATUS:** Open (with the exception of Executive Session).

**CONTACT PERSON:** Jeffrey Bryson, General Counsel/Secretary, (202) 760-4101; [jbryson@nw.org](mailto:jbryson@nw.org).

**AGENDA:**

- I. CALL TO ORDER
- II. Presentation to Michael Forster, CFO
- III. Approval of Minutes
- IV. Executive Session: Officer FY’13 Performance Review
- V. Executive Session: Management Internal Operations Review
- VI. Approval of FY’13 Audit
- VII. Lease Renewal Parameters
- VIII. Sustainable Homeownership RFP
- IX. Resolution Recognizing Sarah Raskin
- X. Successor to CounselorMax
- XI. Grants to NeighborWorks Capital and Community Housing Capital
- XII. Financial Report
- XIII. Performance against Strategic Plan and Final FY13 Dashboard/Scorecard
- XIV. Adjournment

**Jeffrey T. Bryson,**

*EVP & General Counsel/Corporate Secretary.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2013-0270]

### Agency Information Collection Activities: Submission for the Office of Management and Budget Review; Comment Request

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of the Office of Management and Budget (OMB) review of information collection and solicitation of public comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an

agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on December 27, 2013 (78 FR 79016).

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* Comprehensive Decommissioning Program, Including Annual Data Collection.

3. *Current OMB approval number:* 3150-0206.

4. *How often the collection is required:* Annually.

5. *Who will be required or asked to report:* All Agreement States who have signed Section 274(b) Agreements with the NRC.

6. *An estimate of the number of annual responses:* 37 (14 Agreement States respondents with sites of interest + 23 Agreement States respondents with no sites of interest).

7. *The estimated number of annual respondents:* 37 (14 Agreement States respondents with sites of interest + 23 Agreement States respondents with no sites of interest).

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 469 (400 hours from Agreement States with sites of interest + 69 hours from Agreement States with no sites of interest).

9. *Abstract:* The Agreement States will be asked to provide information about uranium recovery and complex sites undergoing decommissioning regulated by the Agreement States on an annual basis. The information request will allow the NRC to compile, in a centralized location, more complete information on the status of decommissioning and decontamination in the United States in order to provide a national perspective on decommissioning. The information will be made available to the public by the NRC in order to ensure openness and promote communication to enhance public knowledge of the national decommissioning program. This does not apply to information, such as trade secrets and commercial or financial information provided by the Agreement States, that is considered privileged or confidential. Information such as financial assurance and the status of decommissioning funding would need to be identified by the Agreement State as privileged or confidential, whereupon the NRC would withhold such information from public access and treat it as sensitive or non-sensitive, per the considerations in 10 CFR 2.390

and 9.17. This does not apply to financial assurance or decommissioning funding information that is already available to the public. Although specific details of the funding mechanisms are treated as confidential, beneficial lessons learned regarding the improvement of decommissioning-related funding will be shared with the Agreement States.

The public may examine, and have copied for a fee, publicly-available documents, including the final supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC's Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/>. The document will be available on the NRC's home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by April 23, 2014. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Danielle Y. Jones, Desk Officer, Office of Information and Regulatory Affairs (3150-0206), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be emailed to [Danielle\\_Y\\_Jones@omb.eop.gov](mailto:Danielle_Y_Jones@omb.eop.gov) or submitted by telephone at 202-395-1741.

The Acting NRC Clearance Officer is Kristen Benney, telephone: 301-415-6355.

Dated at Rockville, Maryland, this 18th day of March, 2014.

For the Nuclear Regulatory Commission.

**Kristen Benney,**

*Acting NRC Clearance Officer, Office of Information Services.*

**BILLING CODE 7590-01-P**

## **NUCLEAR REGULATORY COMMISSION**

**[Docket Nos.: 52-034 and 52-035; NRC-2008-0594]**

### **Luminant Generation Company, LLC; Combined License Application for Comanche Peak Nuclear Power Plant, Units 3 and 4, Exemption**

#### **1.0 Background**

Luminant Generation Company, LLC. (Luminant) submitted to the U.S. Nuclear Regulatory Commission (NRC), Combined License (COL) applications

for two United States—Advanced Pressurized Water Reactors (US-APWR) in accordance with the requirements of Part 52 of Title 10 of the *Code of Federal Regulations* (10 CFR), Subpart C, “Licenses, Certifications, and Approvals for Nuclear Power Plants.” These reactors will be identified as Comanche Peak Nuclear Power Plant (CPNPP), Units 3 and 4, and are located at the existing Comanche Peak site in Somervell County, Texas. The NRC docketed the application on December 2, 2008, and is currently performing a review of the application. In addition, the NRC is currently performing a detailed review of the Mitsubishi Heavy Industries, Ltd. (MHI) application for the design certification of the US-APWR.

#### **2.0 Request/Action**

The regulations specified in 10 CFR 50.71(e)(3)(iii) require that an applicant for a COL under Subpart C of 10 CFR Part 52 shall, during the period from docketing of a COL application (COLA), until the Commission makes a finding under 10 CFR 52.103(g) pertaining to facility operation, submit an annual update to the application's Final Safety Analysis Report (FSAR), which is a part of the COLA.

On November 7, 2013, (Agencywide Documents Access and Management System (ADAMS) Accession No. ML13316A369) Luminant submitted a request to the NRC that all reviews associated with the COLA for CPNPP, Units 3 and 4, be suspended for an indeterminate period beginning March 31, 2014. Luminant then submitted COLA, FSAR, Revision 4, on November 26, 2013 (ADAMS Accession No. ML13344B515). Pursuant to 10 CFR 50.71(e)(3)(iii), the next annual update (COLA, FSAR, Revision 5) would be due in November 2014. On January 14, 2014, Luminant requested an exemption from the requirements of 10 CFR 50.71(e)(3)(iii) for an indeterminate period until a change in COLA status is formally requested (ADAMS Accession No. ML14016A298).

In summary, the requested exemption from the requirements of 10 CFR 50.71(e)(3)(iii) is for an indeterminate period. The exemption would allow Luminant to submit the subsequent FSAR update (Revision 5) one year after the COLA review suspension period is formally ended. The FSAR update schedule could not be changed, absent the exemption.

Luminant's requested exemption is interpreted as a one-time schedule change from the requirements of 10 CFR 50.71(e)(3)(iii). In its request, Luminant asked the NRC to grant the exemption
