Instructions: Comments must be written in the English language, and be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that your comments were received, please enclose a stamped, self-addressed postcard with the comments. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below.

Privacy Act: Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477-78).

How to Read Comments Submitted to the Docket: You may read the comments received by Docket Management at the address and times given above. You may also view the documents from the Internet at <http://www.regulations.gov>. Follow the online instructions for accessing the dockets. The docket ID number and title of this notice are shown at the heading of this document notice. Please note that even after the comment closing date, we will continue to file relevant information in the Docket as it becomes available. Further, some people may submit late comments. Accordingly, we recommend that you periodically search the Docket for new material.

FOR FURTHER INFORMATION CONTACT: George Stevens, Office of Vehicle Safety Compliance, NHTSA (202-366-5308).

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Mesa Auto Wholesalers of Chandler, Arizona (Registered Importer 94-018) has petitioned NHTSA to decide whether nonconforming 2011 Mitsubishi Outlander multipurpose passenger vehicles (MPV) manufactured for sale in the Mexican market are eligible for importation into the United States. The vehicles which Mesa Auto Wholesalers believes are substantially similar are 2011 Mitsubishi Outlander MPV that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared non-U.S. certified 2011 Mitsubishi Outlander MPV manufactured for sale in the Mexican market to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

Mesa Auto Wholesalers submitted information with its petition intended to demonstrate that non-U.S. certified 2011 Mitsubishi Outlander MPV manufactured for sale in the Mexican market, as originally manufactured, conform to many FMVSS in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards. Specifically, the petitioner claims that non-U.S. certified 2011 Mitsubishi Outlander Multipurpose Passenger Vehicles manufactured for sale in the Mexican market are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 102 *Transmission Shift Lever Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 106 *Brake Hoses*, 108 *Lamps, Reflective Devices, and Associated Equipment*, 111 *Rearview Mirrors*, 113 *Hood Latch System*, 114 *Theft Protection*, 116 *Motor Vehicle Brake Fluids*, 118 *Power-Operated Window, Partition, and Roof Panel Systems*, 124 *Accelerator Control*

Systems, 126 *Electronic Stability Control Systems*, 135 *Light Vehicle Brake Systems*, 138 *Tire Pressure Monitoring Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 208 *Occupant Crash Protection*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 225 *Child Restraint Anchorages*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

The petitioner also contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays*: replacement of the instrument cluster with the U.S.-model component.

Standard No. 120 *Tire Selection and Rims for Motor Vehicles Other Than Passenger Cars*: installation of a placard with required tire information printed in the English language.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A), (a)(1)(B), and (b)(1); 49 CFR 593.7; delegation of authority at 49 CFR 1.95 and 501.8.

Issued on: March 18, 2014.

Jeffrey Giuseppe,

Acting Director, Office of Vehicle Safety Compliance.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA-2013-0109; Notice 1]

Notice of Receipt of Petition for Decision That Nonconforming 2006-2007 Ferrari 599 GTB Passenger Cars Manufactured Before September 1, 2007 Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Receipt of petition.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of a petition for a decision that nonconforming 2006–2007 Ferrari 599 GTB passenger cars manufactured before September 1, 2007 that were not originally manufactured to comply with all applicable Federal Motor Vehicle Safety Standards (FMVSS), are eligible for importation into the United States because they are substantially similar to vehicles that were originally manufactured for sale in the United States and that were certified by their manufacturer as complying with the safety standards (the U.S.-certified version of the 2006–2007 Ferrari 599 GTB manufactured before September 1, 2007) and they are capable of being readily altered to conform to the standards.

DATES: The closing date for comments on the petition is April 23, 2014.

ADDRESSES: Comments should refer to the docket and notice numbers above and be submitted by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Mail:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.

- *Hand Delivery or Courier:* West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

- *Fax:* 202–493–2251.

Instructions: Comments must be written in the English language, and be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that your comments were received, please enclose a stamped, self-addressed postcard with the comments. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J.K. Technologies, LLC of Baltimore, Maryland (Registered Importer 90–006) has petitioned NHTSA to decide whether nonconforming 2006–2007 Ferrari 599 GTB passenger cars manufactured before September 1, 2007 are eligible for importation into the United States. The vehicles which J.K. Technologies believes are substantially similar are 2006–2007 Ferrari 599 GTB

passenger cars manufactured before September 1, 2007 that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared the non-U.S. certified 2006–2007 Ferrari 599 GTB passenger cars manufactured before September 1, 2007 to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

J.K. Technologies submitted information with its petition intended to demonstrate that non-U.S. certified 2006–2007 Ferrari 599 GTB passenger cars manufactured before September 1, 2007, as originally manufactured, conform to many FMVSS in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards. Specifically, the petitioner claims that the non-U.S. certified 2006–2007 Ferrari 599 GTB passenger cars manufactured before September 1, 2007 are identical to their U.S. certified counterpart with respect to compliance with Standard Nos. 102 *Transmission Shift Lever Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 106 *Brake Hoses*, 113 *Hood Latch System*, 116 *Motor Vehicle Brake Fluids*, 124 *Accelerator Control Systems*, 126 *Electronic Stability Control Systems*, 135 *Light Vehicle Brake Systems*, 139 *New Pneumatic Radial Tires for Light Vehicles*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 225 *Child Restraint Anchorage Systems*, and 302 *Flammability of Interior Materials*.

The petitioner also contends that the non-U.S. certified vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays:* replacement of the instrument cluster with a U.S.-model component and reprogramming of the vehicle computer.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment:* replacement of the headlamps, side marker lamps, and tail lamps with U.S.-model components and reprogramming

the vehicle computer to activate necessary systems.

Standard No. 110 *Tire Selection and Rims for Motor Vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or Less*: installation of a tire information placard.

Standard No. 111 *Rearview Mirrors*: replacement of the passenger side rearview mirror with a U.S.-model component or inscription of the required warning statement on the face of that mirror.

Standard No. 114 *Theft Protection and Rollaway Prevention*: reprogramming the vehicle computer to activate the key warning system.

Standard No. 118 *Power-Operated Window, Partition, and Roof Panel Systems*: reprogramming of the vehicle computer.

Standard No. 207 *Seating Systems*: replacement of seating systems with U.S.-model components to ensure compliance with FMVSS No. 207 as well as the advanced airbag requirements of FMVSS No. 208.

Standard No. 208 *Occupant Crash Protection*: inspection to confirm that labels, seat belts, airbags, sensors, control units, wiring harnesses, knee bolsters, and braces bear part numbers of U.S.-model components. Non-conforming parts will be replaced with U.S.-model components. Reprogramming of the vehicle computer to activate the seat belt warning system and to assure compliance with all other applicable requirements of the standard.

Standard No. 209 *Seat Belt Assemblies*: inspection of seat belts and replacement of non-conforming belts with U.S.-model components.

Standard No. 214 *Side Impact Protection*: inspection of side impact airbag systems and replacement of any non-conforming parts with U.S.-model vehicle components.

Standard No. 301 *Fuel System Integrity*: inspection of all vehicles and replacement of any non U.S.-model fuel system components with U.S.-model components as necessary to conform to the vehicles to the requirements of FMVSS No. 301.

Standard No. 401 *Interior Trunk Release*: installation of U.S.-model interior trunk release components.

The petitioner additionally states that a vehicle identification plate must be affixed to the vehicles near the left windshield post to meet the requirements of 49 CFR Part 565.

Because the subject petition covers nonconforming vehicles that have been manufactured on or after September 1, 2006, compliance with the advanced air bag requirements of FMVSS No. 208 is of significant concern to the agency.

NHTSA is therefore particularly interested in comments regarding the ability of a Registered Importer to readily alter the subject vehicles to fully meet the driver and front outboard passenger frontal crash protection and child passenger protection requirements of FMVSS No. 208. The following is a partial listing of the components that may be affected:

- a. Driver's frontal air bag module
- b. Passenger frontal air bag module
- c. Passenger frontal air bag cover
- d. Knee air bags
- e. Knee bolsters
- f. Passenger outboard frontal seat belt system
- g. Driver and front outboard seat assemblies including seat tracks and internal seat components
- h. Steering wheel components, including the clock spring assembly, the steering column, and all connecting components
- i. Instrument panel
- j. Instrument panel support structure (i.e. cross beam)
- k. Occupant sensing and classification systems, including sensors and processors
- l. Restraint control modules
- m. Passenger air bag status indicator light system, including related display components and wiring
- n. Wiring harnesses between the restraint control module, occupant classification system and restraint system components
- o. Control system computer software and firmware

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A), (a)(1)(B), and (b)(1); 49 CFR 593.7; delegation of authority at 49 CFR 1.95 and 501.8.

Issued on: March 18, 2014.

Jeffrey Giuseppe,

Acting Director, Office of Vehicle Safety Compliance.

BILLING CODE 4910-59-P

DEPARTMENT OF THE TREASURY

Submission for OMB Review; Comment Request

March 19, 2014.

The Department of the Treasury will submit the following information collection requests to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13, on or after the date of publication of this notice.

DATES: Comments should be received on or before April 23, 2014 to be assured of consideration.

ADDRESSES: Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to (1) Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for Treasury, New Executive Office Building, Room 10235, Washington, DC 20503, or email at OIRA_Submission@OMB.EOP.gov and (2) Treasury PRA Clearance Officer, 1750 Pennsylvania Ave. NW., Suite 8140, Washington, DC 20220, or email at PRA@treasury.gov.

FOR FURTHER INFORMATION CONTACT: Copies of the submission(s) may be obtained by calling (202) 927-5331, email at PRA@treasury.gov, or the entire information collection request may be found at www.reginfo.gov.

Internal Revenue Service (IRS)

OMB Number: 1545-0971.

Type of Review: Extension without change of a currently approved collection.

Title: Estimated Income Tax for Estates and Trusts.

Form: 1041-ES.

Abstract: Internal Revenue Code section 6654(1) imposes a penalty on trusts, and in certain circumstances, a decedent's estate, for underpayment of estimated tax. Form 1041-ES is used by the fiduciary to make the estimated tax payments. For first-time filers, the form is available in an Over The Counter (OTC) version at IRS offices. For previous filers, the form is sent to them by the IRS with preprinted vouchers in the Optical Character Resolution (OCR) version.

Affected Public: Private Sector: Businesses or other for-profits.

Estimated Annual Burden Hours: 3,161,236.

OMB Number: 1545-1631.

Type of Review: Extension without change of a currently approved collection.

Title: TD 9249—Escrow Funds and Other Similar Funds (REG-209619-93).
