SUPPLEMENTARY INFORMATION: This ICR seeks approval for changes to the Report of Construction Contractor's Wage Rates, Form WD–10. The DOL uses Form WD–10 to elicit construction project data from contractor associations, contractors, and labor organizations. The WHD uses the wage data to determine locally prevailing wages under the Davis-Bacon and Related Acts. This ICR has been classified as a revision, because the WHD seeks approval for changes to the electronic version of Form WD–10 and corresponding instructions for completing the electronic Form WD–10. These changes will offer new functionality and user-friendly enhancements to the online version of the form. As needed, corresponding changes will be made to the print version Form WD–10. While respondents may submit the information covered by Form WD–10 in

an alternative format, using the form ensures relevant information is consistently provided in a way that reduces burden for both the submitter and the WHD.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1235-0015. The current approval is scheduled to expire on March 31, 2014; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 3, 2013 (78 FR 72715).

Bureau of Labor Statistics

Proposed Collection, Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed test of the "Occupational Requirements Survey." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section of this notice on or before May 23, 2014.

ADDRESSES: Send comments to Nora Kincaid, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE., Washington, DC 20212. Written comments also may be transmitted by

SUPPLEMENTARY INFORMATION:

I. Background

The Occupational Requirements Survey (ORS) is a nationwide test survey that the Bureau of Labor Statistics (BLS) will conduct at the request of the Social Security Administration (SSA).

BLS will evaluate ORS survey processes and operations in a production environment. Data collection and capture will run for approximately six months and will conclude in FY 2015. A full evaluation of the data elements captured for this test will be followed by an evaluation of the processes, survey design, and other test program elements.

Estimates produced from the test data collected by this ORS Test will be used by the SSA to determine how to use updated requirements data in administering the Social Security Disability Insurance (SSDI) program but will not be used to resolve any determination cases.

The Social Security Administration, Members of Congress, and representatives of the disability community have all identified collection of updated information on the requirements of work in today's economy as crucial to the equitable and efficient operation of the SSDI program. The information currently available is more than 20 years old.

The ORS will collect data from a sample of employers. These requirements of work data will consist of information about the duties, responsibilities, job tasks and earnings for a sample of occupations for each sampled employer.

This is a one-time ORS test for sampled establishments.

II. Current Action

Office of Management and Budget clearance is being sought for the Occupational Requirements Survey Test.

The following data will be collected in this ORS test as defined by the SSA's disability program and is data that the National Compensation Survey (NCS) does not currently collect:

(1) An indicator of "time to proficiency," defined as the amount of time required by a typical worker to learn the techniques, acquire the information, and develop the facility
