SUPPLEMENTARY INFORMATION: FEMA is developing a Programmatic Environmental Impact Statement (PEIS) of the NFIP to consider the environmental impacts of the NFIP as it is currently implemented, to update the 1976 EIS on the NFIP, and to consider potential changes to the Program's implementation. Public scoping meetings in the format of online webinars will assist FEMA in determining the scope of issues to be addressed in the NFIP PEIS and for identifying significant issues related to a proposed action.

The Federal Insurance and Mitigation Administration (FIMA), a component of FEMA, administers the NFIP. The three primary components of the NFIP are Flood Insurance, Floodplain Management, and Flood Hazard Mapping. More than 22,000 communities across the United States and its territories participate in the NFIP by adopting and enforcing floodplain management ordinances to reduce future flood damages as a condition for the availability of Federal flood insurance.

In addition to making Federal flood insurance available and reducing flood damages through floodplain management regulations, the NFIP identifies and maps the Nation's floodplains. Mapping flood hazards creates a broad-based awareness of flood hazards and risks, provides data needed for effective floodplain management programs, and enables FEMA to identify actuarial rates for flood insurance premiums.

The NFIP has been evaluated and modified several times, most recently by the Biggert-Waters Flood Insurance Reform Act of 2012 (BW–12), which was signed into law on July 6, 2012 and which provides for a significant reform of the NFIP and extends the program through September 30, 2017. Implementation of legislative revisions since the initial National Flood Insurance Act of 1968, including BW–12, the Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004, and the Flood Disaster Reform Act of 1973, administrative programmatic initiatives, public input received on the 2012 Notice of Intent, and comments received during the online webinars will be used to develop the PEIS.

FEMA has developed a Purpose and Need statement for evaluating NFIP proposed action and alternatives which was published in the 2012 NOI and can be viewed at <http://>

www.regulations.gov/ under Docket ID FEMA–2012–0012. The Purpose and Need statement will include a No Action option that will analyze the Program as it stands today to include program changes that have taken place since the 1976 *Programmatic Environmental Impact Statement for the Revised Floodplain Management Regulations of the National Flood Insurance Program*. The Proposed Action is intended to enhance programmatic efficiency and effectiveness in a manner that will reduce unsound development in the floodplain and protect environmentally sensitive areas.

The PEIS will analyze a range of reasonable alternatives in order to consider the impacts of the Proposed Action on all resource areas required under NEPA at a nationwide, programmatic level, and will perform additional, more site-specific analysis to support and illustrate the conclusions of the programmatic level analysis. A list of draft alternatives for consideration was published in the 2012 NOI and can be viewed at <http://www.regulations.gov/> under Docket ID FEMA–2010–0065. Each alternative analyzed will consist of enhanced program standards for each of the three primary elements of the NFIP: mapping, floodplain management, and insurance to consider as part of proposed modifications.

FEMA also intends to initiate discussions with other Federal agencies on the scope of this effort and identify cooperating agencies interested in participating as such in this process. FEMA intends to work with the U.S. Fish and Wildlife Service (USFWS) and National Marine Fisheries Service (NMFS) to comply with the Endangered Species Act. FEMA also intends to work with the USFWS to comply with the Fish and Wildlife Coordination Act.

FEMA has received comments from the May 16, 2012 Notice of Intent (77 FR 28891–28893) and the August 22, 2012 extension of public comment period (77 FR 50706) issued for the preparation of a PEIS for the Program. These comments and any additional comments received during the online webinars will be considered in the preparation of this PEIS.

Any additional meetings will be announced on the project Web site at: <https://www.fema.gov/programmatic-environmental-impact-statement>.

Authority: National Environmental Policy Act (NEPA), as amended, 42 U.S.C. 4331 et seq.; 40 CFR part 1500; 44 CFR part 10.

Dated: March 19, 2014.

W. Craig Fugate,
Administrator, Federal Emergency
Management Agency.

BILLING CODE 9110–12–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2014–0002; Internal Agency Docket No. FEMA–B–1409]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Title 44, Part 65 of the Code of Federal Regulations (44 CFR Part 65). The LOMR will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings. For rating purposes, the currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will become effective on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has ninety (90) days in which to request through the community that the Deputy Associate Administrator for Mitigation reconsider the changes. The flood hazard

determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at www.msc.fema.gov for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) Luis.Rodriguez3@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided.

Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR Part 65.

The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. The flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at www.msc.fema.gov for comparison.
