Title: New Issue Bond Program and Temporary Credit and Liquidity Program.

Abstract: Authorized under section 304(g) of the Federal National Mortgage Association Charter Act (12 U.S.C. 1719(g)) and Section 306(l) of the Federal Home Loan Mortgage Corporation Act (12 U.S.C. 1455(l), as amended by the Housing and Economic Recovery Act (HERA) of 2008 (Pub. L. 110-289; approved July 30, 2008) the Department of the Treasury (Treasury) implemented two programs under the HFA (Housing Finance Agency) Initiative. The statute provides the Secretary authority to purchase securities and obligations of Fannie Mae and Freddie Mac (the GSEs) as he determines necessary to stabilize the financial markets, prevent disruptions in the availability of mortgage finance, and to protect the taxpayer. On December 4, 2009, the Secretary made the appropriate determination to authorize the two programs of the HFA Initiative: The New Issue Bond Program (NIBP) and the Temporary Credit and Liquidity Program (TCLP). Under the NIBP, Treasury purchased securities from the GSEs backed by mortgage revenue bonds issued by participating state and local HFAs. Under the TCLP, Treasury purchased a participation interest from the GSEs in temporary credit and liquidity facilities provided to participating HFAs as a liquidity backstop on their variable-rate debt. In order to properly manage the two programs of the initiative, continue to protect the taxpayer, and assure compliance with the Programs' provisions, Treasury instituted a series of data collection requirements to be completed by participating HFAs and furnished to Treasury through the GSEs.

This collection was developed as part of a Federal Government-wide effort to streamline the process for seeking feedback from the public on service delivery. This notice announces our intent to submit this collection to OMB for approval and solicits comments on specific aspects for the proposed information collection.

DATES: Consideration will be given to all comments received by May 27, 2014.

ADDRESSES: Submit written comments on the collection of information to Crystal Rennie, (005R1B), Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420. Please refer to "OMB Control No. 2900-0770" in any correspondence.

FOR FURTHER INFORMATION CONTACT:

Crystal Rennie at (202) 632-7492.

SUPPLEMENTARY INFORMATION: Under the PRA of 1995 (Pub. L. 104-13; 44 U.S.C. 3501-3521), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, VBA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of VBA's functions, including whether the information will have practical utility; (2) the accuracy of VA's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Control Number: 2900-0770.

Type of Review: Extension of a currently approved collection.

Abstract: The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses

will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the

degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.
