

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-3885	76,000	1	13	16,467

4. Modified Benefit Formula Questionnaire—0960-0395. SSA collects information on Form SSA-150 to determine which formula to use in computing the Social Security benefit for someone who receives a pension from employment not covered by Social Security. The Windfall Elimination Provision (WEP) requires use of a benefit formula replacing a smaller percentage of a worker's pre-retirement earnings. However, the resulting amount

cannot show a difference in the benefit computed using the modified and regular formulas greater than one-half the amount of the pension received in the first month an individual is entitled to both the pension and the Social Security benefit. The SSA-150 collects the information needed to make all the necessary benefit computations. SSA requires the respondents to furnish the information on Form SSA-150 so we can calculate their benefits using the

data they supply. SSA calculates the benefits of applicants who do not respond to this questionnaire using the full WEP reduction. SSA employees collect this information once from the applicants at the time they file their claim. The respondents are applicants for old age and disability benefits.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-150	90,000	1	8	12,000

5. Employee Identification Statement—20 CFR 404.702—0960-0473. When two or more individuals report earnings under the same SSN, SSA collects information on Form SSA-

4156 to credit the earnings to the correct individual and SSN. We send the SSA-4156 to the employer to: (1) Identify the employees involved; (2) resolve the discrepancy, and (3) credit the earnings

to the correct SSN. The respondents are employers involved in erroneous wage reporting for an employee.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-4156	4,750	1	10	792

Abstract of Proposed Collection

Since 2002, MEPI has obligated more than \$800 million to over 725 organizations, which carry out more than 1,000 projects in support of political, economic, education and women's rights reform in 20 countries of the Middle East and North Africa. As a normal course of business and in compliance with 22 U.S.C. 2395(b) and OMB Guidelines contained in Circular A-110, recipient organizations are required to provide, and the U.S. State Department is required to collect, periodic program and financial performance reports. The responsibility of the State Department to track and monitor the programmatic and financial performance necessitates a database that can help facilitate this in a consistent and standardized manner. The MEPI Performance Reporting System (PRS) enables enhanced monitoring and evaluation of grants through standardized collection and storage of relevant award elements, such as quarterly progress reports, workplans, results monitoring plans, grant agreements, financial reports, and other business information related to MEPI implementers. The PRS streamlines communication with implementers and allows for rapid identification of information gaps for specific projects.

Methodology

Information will be entered into PRS electronically by respondents.
