The Act contains an exemption applicable to Federal, State and local government employers. The EPPA also contains several limited exemptions authorizing polygraph tests under certain conditions, including testing: (1) By the Federal Government of experts, consultants, or employees of Federal contractors engaged in national security intelligence or counterintelligence functions; (2) of employees the employer reasonably suspects of involvement in a workplace incident resulting in economic loss or injury to the employer's business; (3) of some prospective employees of private armored cars, security alarm and security guard firms; and (4) of some current and prospective employees of certain firms authorized to manufacture,

distribute, or dispense controlled substances. The WHD may assess civil money penalties of up to \$10,000 against employers who violate any EPPA provision.

**NATIONAL ARCHIVES AND RECORDS ADMINISTRATION**

[NARA-2014-021]

**Records Schedules; Availability and Request for Comments**

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

**DATES:** Requests for copies must be received in writing on or before May 1, 2014. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memoranda that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

**ADDRESSES:** You may request a copy of any records schedule identified in this notice by contacting Records Management Services (ACNR) using one of the following means:

*Mail:* NARA (ACNR), 8601 Adelphi Road, College Park, MD 20740-6001.

*Email:* [request.schedule@nara.gov](mailto:request.schedule@nara.gov).

*FAX:* 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

**FOR FURTHER INFORMATION CONTACT:** Margaret Hawkins, Director, Records Management Services (ACNR), National

Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-1799. Email: [request.schedule@nara.gov](mailto:request.schedule@nara.gov).

**SUPPLEMENTARY INFORMATION:** Each year, Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media-neutral unless specified otherwise. An item in a schedule is media-neutral when the disposition instructions may be applied to records regardless of the medium in which the records are created and maintained. Items included in schedules submitted to NARA on or after December 17, 2007, are media-neutral unless the item is limited to a specific medium. (See 36 CFR 1225.12(e).)

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If

NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Nine Mile Point, LLC is also the 82 percent owner and the licensed operator of Renewed Facility

Operating License No. NPF-69, which authorizes the possession, use, and operation of Nine Mile Point Nuclear Station, Unit 2 (Nine Mile Point 2). Long Island Power Authority owns the remaining 18 percent of Nine Mile Point 2. Nine Mile Point 1 and 2 (the facility) is located in Oswego County, New York.
