

publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with the Department's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, the Department will automatically revoke the order without further review.<sup>4</sup>

If we receive an order-specific notice of intent to participate from a domestic interested party, the Department's regulations provide that *all parties* wishing to participate in a Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements differ for respondent and domestic parties. Also, note that the Department's information requirements are distinct from the Commission's information requirements. Please consult the Department's regulations for information regarding the Department's conduct of Sunset Reviews. Please consult the Department's regulations at 19 CFR part 351 for definitions of terms and for other general information concerning antidumping and countervailing duty proceedings at the Department.

This notice of initiation is being published in accordance with section 751(c) of the Act and 19 CFR 351.218(c).

Dated: March 12, 2014.

**Christian Marsh,**

*Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.*

#### 1,1,1,2-Tetrafluoroethane From the People's Republic of China: Postponement of Preliminary Determination of Antidumping Duty Investigation

**AGENCY:** Enforcement and Compliance, Formerly Import Administration, International Trade Administration, Department of Commerce.

**DATES:** April 1, 2014.

**FOR FURTHER INFORMATION CONTACT:** Frances Veith or Bob Palmer, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4295, or (202) 482-9068, respectively.

#### SUPPLEMENTARY INFORMATION:

##### Postponement of Preliminary Determination

On December 9, 2013, the Department of Commerce ("Department") published a notice initiating an antidumping duty investigation of 1,1,1,2-Tetrafluoroethane from the People's Republic of China.<sup>1</sup> The notice of initiation inadvertently stated that the Department, in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended ("the Act") and 19 CFR 351.205(b)(1), unless postponed, will issue its preliminary determination no later than 140 days after the publication date of this initiation, instead of the date of initiation. Section 733(b)(1)(A) of the Act and 19 CFR 351.205(b)(1) states that the Department will make a preliminary determination no later than 140 days after the date of the initiation (*i.e.*, December 2, 2013), not 140 days after the publication date of the initiation. Accordingly, the preliminary determination of this antidumping duty investigation is currently due no later than April 21, 2014.

Pursuant to section 733(c)(1)(B) of the Act and 19 CFR 351.205(b)(2), the Department concludes that the parties involved in this investigation are cooperating and determined that this case is extraordinarily complicated by reason of the number and complexity of the transactions to be investigated and adjustments to be considered and the number of firms whose activities must be investigated. The Department determines that a 30-day postponement of the preliminary determination is needed in order to provide the Department with sufficient time to review and analyze questionnaire responses and issue appropriate requests for clarification and additional information.

For the reasons stated above, the Department, in accordance with section 733(c)(1)(B) of the Act, is postponing the deadline for the preliminary determination to no later than 170 days after the date on which the Department initiated this investigation. Therefore, the new deadline for the preliminary

determination is May 21, 2014. In accordance with section 735(a)(1) of the Act, the deadline for the final determination of this investigation will continue to be 75 days after the date of the preliminary determination, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

March 26, 2014.

**Paul Piquado,**

*Assistant Secretary for Enforcement and Compliance.*

### National Oceanic and Atmospheric Administration

#### Notice of Availability of a Draft Programmatic Environmental Assessment for U.S. Integrated Ocean Observing System (IOOS®) Projects

**AGENCY:** National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

**ACTION:** Request for comments.

**SUMMARY:** The Integrated Coastal and Ocean Observation System (ICOOS) Act of 2009 mandated the establishment of the U.S. Integrated Ocean Observing System with NOAA as lead Federal agency. NOAA's U.S. IOOS program seeks comment on a draft programmatic environmental assessment (PEA) of the observing activities regularly occurring in the environment as a direct result of cooperative agreements funded by this program. Technologies proposed for deployment and observational activities under U.S. IOOS are categorized into the following groups: sensors and instrumentation; vessels (including personal watercraft) and sampling; AUVs, gliders, and drifters; moorings, marine stations, buoys, and fixed arrays; HF radar; and sound navigation and ranging (sonar) and light detection and ranging (lidar). These observing activities support the core mission of U.S. IOOS: systematic provision of readily accessible marine environmental data and data products in an interoperable, reliable, timely, and user-specified manner to end-users/customers to serve seven critical and expanding societal needs:

1. Improve predictions of climate change and weather and their effects on coastal communities and the nation;
2. Improve the safety and efficiency of maritime operations;
