2. Statutory Basis

By adding real time position capture immediately prior to allocation, the proposed rule change streamlines processes associated with corporate action events and mitigates risk associated with such processing; it allows for more prompt and accurate crediting of corporate action securities to the Accounts of Participants. Therefore, DTC believes the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to DTC, in particular Section 17A(b)(3)(F)⁶ of the Act which requires that DTC's Rules be designed to promote the prompt and accurate clearance and settlement of securities transactions.

B. Self-Regulatory Organization's Statement on Burden on Competition

DTC does not believe that the proposed rule change will have any impact, or impose any burden, on competition. As stated above, the proposed change adds a real-time position capture to facilitate accurate corporate actions processing which will benefit all Participants' equally and should have no effect on competition within or without DTC.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments relating to the proposed rule change have not yet been solicited or received. DTC will notify the Commission of any written comments received by DTC.
