[Docket No. FD 35810]

CCET, LLC—Lease and Operation Exemption—Rail Line of Norfolk Southern Railway Company

CCET, LLC (CCET), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to lease from Norfolk Southern Railway Company (NSR), and to operate, pursuant to a lease agreement dated March 14, 2014, an approximately 24-mile portion of NSR's CT Line, extending between milepost CT 9.0 at Clare, Ohio, east of Clare Yard, and milepost CT 32.83, west of Williamsburg, Ohio, and passing through Hamilton County and Clermont County, Ohio (the Line).

According to CCET, the lease does not contain any provision that prohibits, restricts, or would otherwise limit future interchange of traffic with any third-party carrier. CCET states that it

¹⁶ 17 CFR 200.30-3(a)(12).

will hold itself out to provide all common carrier rail freight service over the Line, with NSR retaining limited overhead trackage rights.

CCET intends to consummate the proposed transaction on or after April 27, 2014, which is after the effective date of this exemption (30 days after the exemption was filed).

CCET certifies that their projected annual revenues as a result of this transaction will not result in its becoming a Class I or Class II rail carrier and will not exceed \$5 million.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions to stay must be filed by April 11, 2014 (at least seven days prior to the date the exemption becomes effective).

An original and ten copies of all pleadings, referring to Docket No. FD 35810, must be filed with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on applicant's representative, James H.M. Savage, 22 Rockingham Court, Germantown, MD 20874.

By the Board,

Decided: March 28, 2014.

SUPPLEMENTARY INFORMATION: The Board has been closely monitoring the rail industry's performance metrics, and is concerned about the service problems that have been occurring across significant portions of the nation's rail network, particularly on the Canadian Pacific Railway Company (CP) and BNSF Railway Company (BNSF) systems. The Board Members have written to CP and BNSF¹ to express

Officer, BNSF Railway Company (Feb. 5, 2014) (on file with the Board), available at <http://stb.dot.gov> (open tab at "E-Library, select "Correspondence", select "Fall Peak Letters", follow "02/05/2014" hyperlink, and select the ".pdf" icon); Letter from Daniel R. concerns that poor service is negatively affecting agricultural, coal, passenger, and other traffic. Per the Board's request, senior management representatives of CP and BNSF met individually with each Board Member, and the Board requested certain additional data from CP and BNSF.

The Board's Office of Public Assistance, Governmental Affairs and Compliance (OPAGAC) has also been working with CP and BNSF to address and correct service issues as they arise. Representatives of OPAGAC have held numerous meetings and conference calls with affected parties to better understand the specific problems shippers are facing, and to help facilitate a quick resolution whenever possible. Board staff has facilitated meetings in Fargo, North Dakota, on service issues with shippers from North Dakota, South Dakota, Minnesota, and Montana. We anticipate that, following this public hearing, additional field meetings in other affected areas will be held. The Board's hearing is not intended to replace the informal and confidential process facilitated by OPAGAC, and shippers and railroads are encouraged to continue communicating through that office.

The Board will hold a public hearing beginning at 9:30 a.m., on April 10, 2014,² at its offices in Washington, DC, to provide an opportunity for interested persons to report on the status of rail service and to discuss ways to remedy the current service problems.³ The Board will direct executive-level officials from CP and BNSF to appear at the hearing to discuss their ongoing and future efforts to improve service on their railroads and to provide an estimated timeline for a return to normal service levels. The Board particularly encourages impacted shippers and/or shipper organizations to appear at the hearing to discuss their service concerns and to comment on the railroads'

² Our regulations at 49 CFR 1012.3(c) provide generally for at least seven days' advance notice of a public meeting. This decision is being served more than seven days in advance of the April 10 hearing. Although **Federal Register** publication will not be effected until April 7, 2014, we find that the service issues discussed above require that this hearing be held as soon as possible. See 49 CFR 1012.3(e).

³ The Board and other agencies have held similar hearings in the past to address transportation service issues. See, e.g., *Rail Transp. of Res. Critical to the Nation's Energy Supply*, EP 672 (STB served June 6, 2007); *Notice of Discussions*, AD06-8-000 (FERC issued May 30, 2006); *Discussions with Utility & R.R. Representatives on Market & Reliability Matters*, AD06-8-000 (FERC Transcript dated May 23, 2006).
