Christmas Tree Promotion, Research, and Information Order; Lifting of the Stay of Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule; lifting stay of regulations.

SUMMARY: On November 8, 2011, a final rule was published in the **Federal Register** (76 FR 69094) establishing an industry-funded promotion, research, and information program for fresh cut Christmas trees. The effective date of the final rule was November 9, 2011. On November 17, 2011, the Christmas Tree Promotion Research and Information Order (Order) date was stayed to provide all interested persons, including the Christmas tree industry and the general public, an opportunity to become more familiar with the program. The stay is being lifted in accordance with the provisions of the Agricultural Act of 2014.

DATES: The removal of the stay of subpart A of 7 CFR part 1214 will become effective April 8, 2014.

FOR FURTHER INFORMATION CONTACT:

Patricia A. Petrella, Marketing Specialist, Promotion and Economics Division, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue SW., Room 1406, Stop 0244, Washington, DC 20250-0244; telephone: (301) 334-2891; or facsimile: (301) 334-2896; or email: Patricia.Petrella@ams.usda.gov.

SUPPLEMENTARY INFORMATION: The Department of Agriculture (Department) published in the **Federal Register** on

November 8, 2011, (76 FR 69094) a final rule that established a Christmas Tree Promotion, Research, and Information Order (Order). This Order was issued pursuant to the Commodity Promotion, Research, and Information Act of 1996 (7 U.S.C. 7411-7425). A stay of the regulation was issued on November 17, 2011 (76 FR 71241) to provide additional time for the Department to reach out to the Christmas Tree industry and the public to explain how a research and promotion program is a producer driven program to support American farmers. The Department did provide additional information to interested parties including the Christmas tree industry, the media, and the public, to explain how the program works and the overall benefits of research and promotion programs. Industry stakeholders also conducted outreach among the industry and other interested persons.

The stay is being lifted in accordance with the provisions of the Agricultural Act of 2014. Section 10014 states that not later than 60 days after the date of the enactment of this Act, the Secretary of Agriculture shall lift the administrative stay imposed and published by the Department on November 17, 2011.

Accordingly, the stay is lifted to allow the program to become effective.

Authority: 7 U.S.C. 7411-7425 and 7401.

Airworthiness Directives; Fokker Services B.V. Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for all Fokker Services B.V. Model F.28 Mark 0070 and 0100 airplanes. This AD was prompted by a design review, which revealed that no controlled bonding provisions are present on a number of critical locations inside the fuel tank or connected to the fuel tank wall. This AD requires installing additional bonding provisions in the fuel tank, and revising the airplane maintenance or inspection program by incorporating fuel airworthiness limitation items and critical design configuration control limitations. We are issuing this AD to prevent an ignition source in the fuel tank vapor space, which could result in a fuel tank explosion and consequent loss of the airplane.

DATES: This AD becomes effective May 12, 2014.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of May 12, 2014.

ADDRESSES: You may examine the AD docket on the Internet at <http://www.regulations.gov/#/docketDetail;D=FAA-2013-0674>; or in person at the Docket Management Facility, U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC.

SUPPLEMENTARY INFORMATION:

Discussion

We issued a notice of proposed rulemaking (NPRM) to amend 14 CFR

part 39 by adding an AD that would apply to all Fokker Services B.V. Model F.28 Mark 0070 and 0100 airplanes. The NPRM published in the **Federal Register** on August 12, 2013 (78 FR 48832). The NPRM was prompted by a design review, which revealed that no controlled bonding provisions are present on a number of critical locations inside the fuel tank or connected to the fuel tank wall. The NPRM proposed to require installing additional bonding provisions in the fuel tank, and revising the airplane maintenance or inspection program by incorporating fuel airworthiness limitation items and critical design configuration control limitations. We are issuing this AD to prevent an ignition source in the fuel tank vapor space, which could result in a fuel tank explosion and consequent loss of the airplane.

The European Aviation Safety Agency (EASA), which is the Technical Agent for the Member States of the European Community, has issued EASA Airworthiness Directive 2012-0242, dated November 12, 2012 (referred to after this as the Mandatory Continuing Airworthiness Information, or “the MCAI”), to correct an unsafe condition for the specified products. The MCAI states:

Prompted by an accident * * *, the FAA published Special Federal Aviation

Regulation (SFAR) 88 [(66 FR 23086, May 7, 2001)], and the Joint Aviation Authorities (JAA) published Interim Policy INT/POL/25/12.

The design review conducted by Fokker Services on the Fokker 70 and Fokker 100 in response to these regulations revealed that no controlled bonding provisions are present on a number of critical locations, inside the fuel tank or connected to the fuel tank wall. This condition, if not corrected, may create an ignition source in the fuel tank vapour space, possibly resulting in a fuel tank explosion and consequent loss of the aeroplane.

For the reasons described above, this [EASA] AD requires the installation of additional bonding provisions and, subsequently, the implementation of the associated Fuel Airworthiness Limitation Items (ALI) and Critical Design Configuration Control Limitations (CDCCL[s]) [and revising the maintenance program to incorporate the ALIs and CDCCLs].

You may examine the MCAI in the AD docket on the Internet at <http://www.regulations.gov/#!documentDetail;D=FAA-2013-0674-0002>.

Comments

We gave the public the opportunity to participate in developing this AD. We received no comments on the NPRM (78 FR 48832, August 12, 2013) or on the determination of the cost to the public.

Explanation of Change Made to This AD

There was an error in the Fokker drawing number referenced in paragraphs (g)(1)(ix) and (g)(2)(ix) of the NPRM (78 FR 48832, August 12, 2013). The Fokker drawing number referenced in the NPRM was W692710, but should have been W69710. That error has been corrected in paragraphs (g)(1)(ix) and (g)(2)(ix) of this final rule.

Conclusion

We reviewed the available data and determined that air safety and the public interest require adopting this AD with the change described previously and minor editorial changes. We have determined that these minor changes:

- Are consistent with the intent that was proposed in the NPRM (78 FR 48832, August 12, 2013) for correcting the unsafe condition; and
- Do not add any additional burden upon the public than was already proposed in the NPRM (78 FR 48832, August 12, 2013).

Costs of Compliance

We estimate that this AD affects 10 airplanes of U.S. registry.

We estimate the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Installation of bonding provisions and maintenance program revision.	36 work-hours × \$85 per hour = \$3,060	\$0	\$3,060	\$30,600

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. “Subtitle VII: Aviation Programs,” describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in “Subtitle VII, Part A, Subpart III, Section 44701: General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on

products identified in this rulemaking action.

Regulatory Findings

We determined that this AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

1. Is not a “significant regulatory action” under Executive Order 12866;
2. Is not a “significant rule” under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979);
3. Will not affect intrastate aviation in Alaska; and
4. Will not have a significant economic impact, positive or negative,

on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Examining the AD Docket

You may examine the AD docket on the Internet at <http://www.regulations.gov/#!docketDetail;D=FAA-2013-0674>; or in person at the Docket Operations office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. BILLING CODE 4160-01-P

DEPARTMENT OF THE TREASURY

Office of Foreign Assets Control

31 CFR Part 560

Iranian Transactions and Sanctions Regulations

AGENCY: Office of Foreign Assets Control, Treasury.

ACTION: Final rule.

SUMMARY: The Department of the Treasury’s Office of Foreign Assets Control (“OFAC”) is adopting a final rule amending the Iranian Transactions and Sanctions Regulations (“ITSR”) by expanding an existing general license that authorizes the exportation or reexportation of food to individuals and entities in Iran to include the broader category of agricultural commodities. The rule also clarifies and adds certain definitions in OFAC regulations. Finally, the rule adds a new general license that authorizes the exportation or reexportation of certain replacement parts for certain medical devices.

DATES: *Effective:* April 7, 2014.

FOR FURTHER INFORMATION CONTACT: Assistant Director for Licensing, tel.: 202/622-2480, Assistant Director for

Policy, tel.: 202/622-2746, Assistant Director for Regulatory Affairs, tel.: 202/622-4855, Assistant Director for Sanctions Compliance and Evaluation, tel.: 202/622-2490, Office of Foreign Assets Control, or Chief Counsel (Foreign Assets Control), tel.: 202/622-2410, Office of the General Counsel, Department of the Treasury (not toll free numbers).

SUPPLEMENTARY INFORMATION: OFAC is adopting a final rule amending the ITSR by expanding an existing general license that authorizes the exportation or reexportation of food to individuals and entities in Iran to include the broader category of agricultural commodities. Exports of certain specified items, as well as exports to certain persons, are excluded from the general license.

Additionally, OFAC is clarifying, for purposes of the general licenses in ITSR § 560.530, that the definitions of the terms agricultural commodities, medicine, and medical device include, in the case of items subject to the Export Administration Regulations, 15 CFR Part 730 *et seq.* (“EAR”), items that are designated as EAR99 and, in the case of items that are not subject to the EAR, items that would be designated as EAR99 if they were located in the United States.

Furthermore, this rule adds a definition of “covered person,” which, with respect to the exportation or reexportation of items subject to the EAR, is a U.S. person or a non-U.S. person, and for purposes of items not subject to the EAR, is a U.S. person, wherever located, or an entity owned or controlled by a U.S. person and established or maintained outside the United States (a “U.S.-owned or -controlled foreign entity”). This amendment clarifies that, for purposes of the exportation or reexportation of items that are not subject to the EAR, and consistent with 31 CFR 560.556, the general licenses set forth in § 560.530 apply to any U.S. person, wherever located, or any U.S.-owned or -controlled foreign entity.

Finally, OFAC is adding a new general license that authorizes the exportation or reexportation of replacement parts for certain medical devices to individuals and entities in Iran provided that the replacement parts are designated under the EAR as EAR99, or would be designated as EAR99 if they were located in the United States, and limited to a one-for-one export or reexport basis. This rule also updates the definition of “basic medical supplies” to exclude the word “basic” and make related conforming changes. Accordingly, the “List of Basic Medical
