A stay of the regulation was issued on November 17, 2011 (76 FR 71241) to provide additional time for the Department to reach out to the Christmas Tree industry and the public to explain how a research and promotion program is a producer driven program to support American farmers. Industry stakeholders also conducted outreach among the industry and other interested persons.

Section 10014 states that not later than 60 days after the date of the enactment of this Act, the Secretary of Agriculture shall lift the administrative stay imposed and published by the Department on November 17, 2011.

Accordingly, the stay is lifted to allow the program to become effective.

Airworthiness Directives; Fokker Services B.V. Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for all Fokker Services B.V. Model F.28 Mark 0070 and 0100 airplanes. This AD was prompted by a design review, which revealed that no controlled bonding provisions are present on a number of critical locations inside the fuel tank or connected to the fuel tank wall. This AD requires installing additional bonding provisions in the fuel tank, and revising the airplane maintenance or inspection program by incorporating fuel airworthiness limitation items and critical design configuration control limitations. We are issuing this AD to prevent an ignition source in the fuel tank vapor space, which could result in a fuel tank explosion and consequent loss of the airplane.

DATES: This AD becomes effective May 12, 2014.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of May 12, 2014.
