propositions, of smart and grid-connected buildings equipment;

- Candidate metrics to characterize smart and grid-connected buildings equipment;
- Potential frameworks for the characterization process;
- Other topics related to smart and grid-connected equipment that DOE should consider;
- Public input on key stakeholders DOE should engage; and
- Public input to identify reports, analyses, and case studies of which DOE should be aware.

Grid connected water heaters are subject to an ongoing rulemaking proceeding and will not be discussed at the meeting.

Note that agenda items may change without notice. The final agenda will be posted on the DOE Web site at: <http://energy.gov/eere/buildings/buildings-grid-integration>.
