

must submit information to allow measurement of project outcomes and performance consistent with its approved application, including any data needed to comply with GPRA (34 CFR 373.21). For the Braille Training Program, we are requiring a grantee to collect information on the number of students who attend the program, the number of students who complete the program, and whether these students obtain positions that require braille training following completion of the program. Grantees are required to report annually to RSA on these data.

Other information, as requested by RSA, may be required from grantees in order to verify substantial progress and successfully report the effectiveness of the program to Congress and key stakeholders. Grantees are strongly encouraged to seek technical guidance as needed from RSA staff to ensure that they are meeting the objectives, goals, targets, and projected outcomes specified in their approved application.

5. Continuation Awards: In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made "substantial progress toward meeting the objectives in its approved application." This consideration includes the review of a grantee's progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
