

Homeland Security Act of 2002, 6 U.S.C. 101 et seq., is required to develop the National Emergency Communications Plan (NECP), which includes identification of goals, timeframes, and appropriate measures to achieve interoperable communications capabilities. In 2010, the Statewide Communication Interoperability Plan (SCIP) Implementation Report was cleared in accordance with the Paperwork Reduction Act of 1995. The SCIP Template and Annual Progress Report will replace the previous SCIP Template and SCIP Implementation Report. These updated documents (SCIP Template and Annual Progress Report) streamline the information collected by OEC to track the progress states are making in implementing milestones and demonstrating goals of the NECP. There is no change to the information being collected. The only proposed change to the collection is that an online option is being added. States will have the option of submitting both documents via email at oc@hq.dhs.gov or through an online tool.

The SCIP Template and Annual Progress Report will assist states in their strategic planning for interoperable and emergency communications while demonstrating each state's achievements and challenges in accomplishing optimal interoperability for emergency responders. In addition, certain government grants may require states to update their SCIP Templates and Annual Progress Reports to include broadband efforts in order to receive funding for interoperable and emergency communications.

Statewide Interoperability Coordinators (SWICs) will be responsible for the development and incorporation of input from their respective stakeholders and governance bodies into their SCIP Template and Annual Progress Report. SWICs will complete and submit the reports directly to OEC through unclassified electronic submission.
