

OMB Approval Number: 2535–0107.
Type of Request: Extension of currently approved collection.
Form Number: None.

Description of the need for the information and proposed use: To meet the requirements of the Uniform Financial Standards Rule (24 CFR part 5, Subpart H) and the continued implementation of asset management contained in 24 CFR part 990, the Department has developed the financial management template that public housing agencies (PHAs) use to annually submit electronically financial information to HUD. Frequency of Response: 4,055 PHAs submit one unaudited financial management template annually and 3,599 PHAs also submit one audited financial management template annually.

Average Hours per Response: Average of 5.31 hours per response, for a total reporting burden of 40,448 hours.

Total Estimated Burdens: Average cost of \$196.54 per response, for a total annual cost of \$1,496,434.66 for both unaudited and audited templates.

Preliminary Affordability Determination—Energy Efficiency Standards

AGENCIES: U.S. Department of Housing and Urban Development and U.S. Department of Agriculture.

ACTION: Notice of preliminary determination.

SUMMARY: The Energy Independence and Security Act of 2007 (EISA) establishes procedures for the U.S. Department of Housing and Urban Development (HUD) and the U.S. Department of Agriculture (USDA) to adopt revisions to the 2006 International Energy Conservation Code (IECC) and to the 2004 energy codes of the American Society of Heating, Refrigerating, and Air-conditioning Engineers (ASHRAE), referred to as ASHRAE 90.1-2004, subject to: (1) A determination that the revised codes do not negatively affect the availability or affordability of new construction of single and multifamily housing covered by EISA, and (2) a determination by the Secretary of Energy that the revised codes “would improve energy efficiency.”¹ This Notice announces the preliminary

determination of HUD and USDA, as required under section 481(d) of EISA, that the 2009 IECC and (with the exception of the State of Hawaii) ASHRAE 90.1-2007 will not negatively affect the affordability and availability of housing covered by EISA. As of September 2013, 32 States plus the District of Columbia have already adopted the 2009 IECC, its equivalent, or a higher standard for single family homes. Thirty-eight States plus the District of Columbia have already adopted ASHRAE 90.1-2007, its equivalent, or a higher standard for multifamily buildings. For those States that have not yet adopted either of these standards, this Notice relies on several studies that show that these codes are cost effective, in that the incremental cost of the additional efficiency measures pays for itself with energy cost savings on a life-cycle basis.

DATES: *Comment Due Date:* May 30, 2014.
