

and management of Instrument Flight Rule (IFR) operations at the airport. Geographic coordinates are also updated.

DATES: *Effective date:* 0901 UTC, July 24, 2014. The Director of the Federal Register approves this incorporation by reference action under 1 CFR Part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Scott Enander, Central Service Center, Operations Support Group, Federal Aviation Administration, Southwest Region, 2601 Meacham Blvd., Fort Worth, TX 76137; telephone 817-321-7716.

SUPPLEMENTARY INFORMATION:

History

On January 8, 2014, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to amend Class E airspace for the Paragould, AR, area, modifying controlled airspace at Kirk Field Airport (79 FR 1344) Docket No. FAA-2013-0588. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending Class E airspace extending upward from 700 feet above the surface for standard instrument approach procedures at Kirk Field Airport, Paragould, AR. Airspace reconfiguration is necessary due to the decommissioning of the Paragould NDB and the cancellation of the NDB approach. The segment northeast of the airport is now within 2.5 miles each side of the 062° bearing from the airport. Controlled airspace is necessary for the safety and management of IFR operations at the airport. Geographic coordinates are also adjusted to coincide with the FAA's aeronautical database.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action"

under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Kirk Field, Paragould, AR.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9X, Airspace Designations and Reporting Points, dated August 7, 2013, and effective September 15, 2013, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface.

* * * * *

ASW AR E5 Paragould, AR [Amended]

Paragould, Kirk Field, AR
(Lat. 36°03'50" N., long. 90°30'33" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Kirk Field, and within 2.5 miles each side of the 218° bearing from the airport extending from the 6.4-mile radius to 9.5 miles southwest of the airport, and within 2.5 miles each side of the 062° bearing from the airport extending from the 6.4-mile radius to 7.5 miles northeast of the airport.

Issued in Fort Worth, Texas, on April 2, 2014.

Kent M. Wheeler,

Manager, Operations Support Group, ATO Central Service Center.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2013-0587; Airspace Docket No. 13-ACE-8]

Amendment of Class E Airspace; Jefferson City, MO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace at Jefferson City, MO. Decommissioning of the Noah non-directional radio beacon (NDB) at Jefferson City Memorial Airport has made reconfiguration necessary for standard instrument approach procedures and for the safety and management of Instrument Flight Rule (IFR) operations at the airport.

DATES: *Effective date:* 0901 UTC, July 24, 2014. The Director of the Federal Register approves this incorporation by reference action under 1 CFR Part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Scott Enander, Central Service Center, Operations Support Group, Federal

Aviation Administration, Southwest Region, 2601 Meacham Blvd., Fort Worth, TX 76137; telephone 817-321-7716.

SUPPLEMENTARY INFORMATION:

History

On January 8, 2014, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to amend Class E airspace for the Jefferson City, MO, area, modifying controlled airspace at Jefferson City Memorial Airport (79 FR 1342) Docket No. FAA-2013-0587. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Subsequent to publication, it was discovered that the geographic coordinates of the Jefferson City ILS did not coincide with those in the FAA's aeronautical database. This action corrects those coordinates. Except for these changes, this action remains the same as that published in the NPRM. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending Class E airspace extending upward from 700 feet above the surface for standard instrument approach procedures at Jefferson City Memorial Airport, Jefferson City, MO. Airspace reconfiguration is necessary due to the decommissioning of the Noah NDB and the cancellation of the NDB approach. The segment northwest of the airport is now within 3.2 miles each side of the 303° bearing from the airport extending from the 6.6-mile radius to 14.3 miles. Controlled airspace is necessary for the safety and management of IFR operations at the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a

routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Jefferson County Memorial Airport, Jefferson City, MO.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

- 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

- 2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9X, Airspace Designations and Reporting Points, dated August 7, 2013, and effective September 15, 2013, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface.

* * * * *

ACE MO E5 Jefferson City, MO [Amended]

Jefferson City Memorial Airport, MO
(Lat. 38°35'28" N., long. 92°09'22" W.)
Jefferson City Memorial Airport ILS
(Lat. 38°35'50" N., long. 92°10'01" W.)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of Jefferson City Memorial Airport, and within 3.2 miles each side of the 303° bearing from the airport extending from the 6.6-mile radius to 14.3 miles northwest of the airport, and within 4 miles each side of the Jefferson City Memorial Airport ILS localizer course extending from the 6.6-mile radius to 11.8 miles southeast of the airport.

Issued in Fort Worth, Texas, on April 2, 2014.

Kent M. Wheeler,

Manager, Operations Support Group, ATO Central Service Center.

BILLING CODE 4910-13-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1910

[Docket No. OSHA-2013-0010]

RIN 1218-AC80

Record Requirements in the Mechanical Power Presses Standard

AGENCY: Occupational Safety and Health Administration (OSHA), Department of Labor.

ACTION: Final rule; confirmation of effective date.

SUMMARY: On November 20, 2013, OSHA published in the **Federal Register** a direct final rule that revised records contained in the Mechanical Power Press Standard. OSHA stated in that document that it would withdraw the companion proposed rule and confirm the effective date of the final rule if the Agency received no significant adverse comments on the direct final rule or the proposal. Since OSHA received no such significant adverse comments on the direct final rule or the proposal, the Agency now confirms that the direct final rule became effective as a final rule on February 18, 2013.

DATES: The direct final rule published on November 20, 2013 (78 FR 69543), became effective as a final rule on February 18, 2014. For the purposes of judicial review, OSHA considers April 18, 2014, the date of issuance of the final rule.
