

and operational elements specifically represent the latter.

In order to collect information needed to develop and implement effective strategies that meet the Program's goal of providing leadership, coordination, guidance and direction to the enhancement of the Nation's 911 services, NHTSA proposes to utilize a Web-based, data reporting and collection tool accessible through the Web site: <http://resourcecenter.911.gov/code/9-1-1ProfileDatabase.aspx>.

Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information):

Under this proposed effort, the 911 Resource Center would specifically request reporting entities to voluntarily collect and annually report the data described above utilizing the described Web-based data collection tool.

Reporting entities are State-level 911 program officials, and the data reported will reflect State-level aggregated data. The total number of respondents is identified at 56, including the 50 States and the six U.S. Territories of Guam, U.S. Minor Outlying Islands, American Samoa, Mariana Islands, U.S. Virgin Islands, and Puerto Rico.

The above reporting entities will be requested to annually update data relating to their State or territory using the described Web-based tool.

Estimate of the Total Annual Reporting and Recordkeeping Burden Resulting From the Collection of Information:

NHTSA estimates that the time required to annually report the data described utilizing the Web-based tool will be three hours (two hours of preparation, one hour of entry to Web site) per reporting entity, for a total of 168 hours for all entities. The

respondents would not incur any reporting costs from the information collection beyond the time it takes to gather the information, prepare it for reporting and then populate the Web-based data collection tool. The respondents also would not incur any recordkeeping burden or recordkeeping costs from the information collection.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for the Department's performance; (b) the accuracy of the estimated burden; (c) ways for the Department to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued in Washington, DC on: April 15, 2014.
