The Committee for Purchase From People Who Are Blind or Severely Disabled (Committee) administers the AbilityOne Program in accordance with statutory and regulatory requirements. Committee regulations at 41 CFR 51-2-

4 state that for a commodity or service to be suitable for addition to the Procurement List (PL) each of the following criteria must be satisfied: employment potential; nonprofit agency qualifications, capability, and level of impact on the current contractor for the commodity or service.

Comments were received from the incumbent contractor. The contractor, an Alaska Native Corporation (ANC), states that the Committee should not add the project to the PL, as it would result in severe adverse impact on their firm and that the service cannot be performed as required by the Javits-Wagner-O'Day (JWOD) Act. The contractor lists several reasons why the service should not be added to the PL, including: The Base Operations Support (BOS) service is the ANC's largest contract, representing over 35% of its FY12 sales revenue; the contractor has been a continuous supplier of the service since 1999 and relies on its track record of successful performance; ANCs are defined as "economically disadvantaged business enterprises," which precludes the Committee from including its parent and affiliated corporations' financial sales revenue when assessing impact; and the addition would violate the intent of various statutes and regulations that confer contracting benefits on ANCs. The contractor also asserts that the BOS service contract will not generate employment for people with severe disabilities because they claim it cannot be performed using a 75% severely disabled workforce which they say is required by the JWOD Act for each service; and, they assert that the proposed AbilityOne nonprofit agency is not capable of performing the service or doing so at a fair market price.

Information provided by the contracting activity shows that the current contract for BOS service was awarded to the contractor as a large business in May 2009, following a full and open competition. The last option year ends on June 30, 2014. Following required government contracting protocols, the contracting activity conducted market research and developed an acquisition strategy seeking an AbilityOne nonprofit agency solution for the BOS service. The contracting activity has worked closely with the AbilityOne Program and the proposed nonprofit agency, and advises the Committee that it is fully confident of the technical capability of the nonprofit agency to perform the services using a workforce consisting of persons with severe disabilities. The contracting activity fully participated in the development of the recommended fair
