

the Sea," imported from abroad for temporary exhibition within the United States, are of cultural significance. The objects are imported pursuant to loan agreements with the foreign owners or custodians. I also determine that the exhibition or display of the exhibit objects at the Peabody Essex Museum, Salem, Massachusetts, from on or about May 31, 2014, until on or about September 1, 2014, and at possible additional exhibitions or venues yet to be determined, is in the national interest. I have ordered that Public Notice of these Determinations be published in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** For further information, including a list of the imported objects, contact Paul W. Manning, Attorney-Adviser, Office of the Legal Adviser, U.S. Department of State (telephone: 202-632-6469). The mailing address is U.S. Department of State, SA-5, L/PD, Fifth Floor (Suite 5H03), Washington, DC 20522-0505.

Dated: April 15, 2014.

## DEPARTMENT OF STATE

[Public Notice 8704]

### Call for Expert Reviewers to the U.S. Government Review of the Synthesis Report (SYR) of the Fifth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC)

**SUMMARY:** The United States Global Change Research Program, in cooperation with the Department of State, request expert review of the Intergovernmental Panel on Climate Change (IPCC) Second Order Draft (SOD) Synthesis Report (SYR) of the Fifth Assessment (AR5). More information on the report can be found at <http://www.ipcc-syr.nl/>.

The United Nations Environment Programme (UNEP) (<http://www.unep.org/>) and the World Meteorological Organization (WMO) ([http://www.wmo.int/pages/index\\_en.html](http://www.wmo.int/pages/index_en.html)) established the IPCC in 1988. In accordance with its mandate and as reaffirmed in various decisions by the Panel, the major activity of the IPCC is to prepare comprehensive and up-to-date assessments of policy-relevant scientific, technical, and socio-economic information for understanding the scientific basis of climate change, potential impacts, and options for mitigation and adaptation. The IPCC

develops a comprehensive assessment spanning all the above topics approximately every six years.

The First Assessment Report was completed in 1990, the Second Assessment Report in 1995, the Third Assessment Report in 2001, and the Fourth Assessment in 2007. Three working group volumes and a synthesis report comprise the Fifth Assessment Report. Working Group I assesses the scientific aspects of the climate system and climate change; Working Group II assesses the vulnerability of socio-economic and natural systems to climate change, potential negative and positive consequences, and options for adapting to it; and Working Group III assesses options for limiting greenhouse gas emissions and otherwise mitigating climate change. The Synthesis Report (SYR) synthesizes and integrates material contained with IPCC Assessment Reports and Special Reports. The SYR is to be based exclusively on material contained in the three Working Group Reports and Special Reports produced during the 5th or previous Assessment Cycles. The SYR is to be written in language accessible to non-technical users and guide readers to underlying materials if they wish to explore topics in greater depth.

Procedures for the IPCC and its preparation of reports can be found at the following Web sites: [http://www.ipcc.ch/organization/organization\\_review.shtml](http://www.ipcc.ch/organization/organization_review.shtml) -UEY0LqSe7x8 [http://ipcc.ch/organization\\_procedures.shtml](http://ipcc.ch/organization/organization_procedures.shtml).

In October 2010, the IPCC approved the outline for the SYR of AR5 ([http://www.ipcc.ch/meetings/session32/syr\\_final\\_scoping\\_document.pdf](http://www.ipcc.ch/meetings/session32/syr_final_scoping_document.pdf)). Authors were nominated and selected in March of 2012. All IPCC reports go through two broad reviews: a first-order draft reviewed by experts, and a second-order draft reviewed by both experts and governments. The SOD of the SYR for the AR5 will be available for review beginning on 21 April 2014. As part of the U.S. Government Review of the SOD of the SYR for the AR5, the U.S. Government is soliciting comments from experts in relevant fields of expertise.

Experts may now register to review the draft report at: <http://review.globalchange.gov>; the report will be available for download once it is released on 21 April 2014. To be considered for inclusion in the U.S. Government submission, comments must be received by 5PM EDT Monday, 19 May 2014. The United States Global Change Research Program will

coordinate collection and compilation of U.S. expert comments and the review of the report by a Review Committee of Federal scientists and program managers in order to develop a consolidated U.S. Government submission, which will be provided to the IPCC by 13 June 2014. Instructions for registering as a reviewer, the process of the review itself and details on how to submit comments, as well as the SOD of the report will be available at: <http://review.globalchange.gov>. Experts may choose to provide comments directly through the IPCC's expert review process, which occurs in parallel with the U.S. government & expert review.

More information on the IPCC's comment process may be found at <http://www.ipcc.ch/activities/activities.shtml> and [http://www.ipcc.ch/pdf/ar5/review\\_of\\_wg\\_contributions.pdf](http://www.ipcc.ch/pdf/ar5/review_of_wg_contributions.pdf).

To avoid duplication, those participating in the U.S. Government & Expert Review process (via <http://review.globalchange.gov>) should not also participate in the Expert Review process that submits comments directly to the IPCC Secretariat.

Comments to the U.S. government review should be submitted using the web-based system at: <http://review.globalchange.gov>. This certification will be published in the **Federal Register**.

**Trigg Talley,**

*Deputy Special Envoy for Climate Change, IPCC Focal Point for the United States, Department of State.*

## DEPARTMENT OF TRANSPORTATION

### Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2010-0027]

#### Hours of Service of Drivers: Application for Renewal of Exemption

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice of final disposition; grant of application for exemption renewal.

**SUMMARY:** FMCSA announces its decision to grant RockTenn's request for a renewal of its exemption from the hours-of-service (HOS) regulation that prohibits drivers from operating property-carrying commercial motor vehicles (CMVs) after the 14th hour after coming on duty. FMCSA renews this limited exemption for RockTenn's shipping department employees and

occasional substitute commercial driver's license (CDL) holders who transport paper mill products short distances between its shipping and receiving locations on a public road. The exemption is restricted to a specific 275 foot route in Chattanooga, Tennessee. This exemption will allow these individuals to occasionally work up to 16 consecutive hours and be allowed to return to work with less than the mandatory 10 consecutive hours off duty.

**DATES:** This exemption is effective from April 17, 2014 (12:01 a.m.), through April 16, 2016 (11:59 p.m.).

**FOR FURTHER INFORMATION CONTACT:** Ms. Pearlie Robinson, FMCSA Driver and Carrier Operations Division, Office of Carrier, Driver and Vehicle Safety Standards, Telephone: 202-366-4325. Email: *MCPSD@dot.gov*.

**SUPPLEMENTARY INFORMATION:**

**Background**

Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant an exemption from many of the safety regulations, including the HOS requirements in 49 CFR part 395, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level of safety that would be achieved absent such exemption" (49 CFR 381.305(a)).

**Request for Exemption**

Under 49 CFR 395.3(a)(2), a property-carrying CMV driver is prohibited from operating a CMV on a public road after the end of the 14th hour after coming on duty following 10 or more consecutive hours off duty.

The initial RockTenn exemption application for relief from the HOS rule was submitted in 2009; a copy of the application is in the docket. That application fully described the nature of shipping operations encountered by CMV drivers employed by RockTenn. On April 17, 2012, the Agency granted RockTenn's current exemption from the HOS regulation that prohibits drivers from operating property-carrying commercial motor vehicles (CMVs) after the 14th hour after coming on duty. That exemption expires on April 16, 2014.

RockTenn operates a paper mill located in Chattanooga, Tennessee, its principal place of business. Its shipping and receiving departments are on opposite sides of the paper mill, requiring driver-employees to travel on a public road to shuttle trailers as needed. These drivers utilize a public road—Compress Street—an average of forty times per day to travel between

RockTenn's manufacturing facility, and shipping and receiving docks. These drivers do not transport any material farther than the paper mill lots and/or Compress Street. The distance traveled on Compress Street is approximately 275 feet in one direction, and one tractor is used to perform this work.

RockTenn's shipping department currently works 12-hour shifts for 4 days, and then allows employees 4 days off duty. The schedule is subject to change. Usually there are two shipping department employees on each shift. One employee drives a fork-lift truck loading trailers with finished goods, and the other operates the tractor shuttling trailers. These employees do not drive a CMV continuously during their shift(s).

At times, RockTenn may operate on three 8-hour shifts with employees working a double (16-hour) shift when "rotating back." According to RockTenn, the problem arises because of the double-shift, and also on occasion when a shipping department driver does not report for work as scheduled. On a Monday, for example, if an individual worked the weekend, his or her shift would normally have to "hurry back" within 8 hours. As a result of the mandatory 10 hours off-duty requirement for drivers, without the exemption RockTenn would be required to schedule these drivers' shifts to start later than other employees. This would create at least 2 hours when the company cannot load or transport trailers with finished goods due to the absence of the drivers. Furthermore, as a result of the 14-hour driving window, they would "work short" without the exemption, creating on-time delivery issues for other employees, who are allowed to work an entire "double shift" (16 hours) when necessary.

RockTenn requested a limited exemption from 49 CFR part 395 for its shipping department CMV drivers, as well as others with a valid CDL who on occasion must substitute, allowing all such drivers to drive as late as the 16th hour since coming on duty and return to work with a minimum of at least 8 hours off duty. If exempt from the normal HOS requirements, these employees could follow the same work schedule as other RockTenn employees on their shift, and would be able to work for the full 16 hours of a "double shift." RockTenn could therefore minimize the chances of delayed shipments that might occur if their drivers were not allowed to work the same schedule as other employees.

RockTenn acknowledged in its application that these drivers would still be subject to all of the other FMCSRs, including possessing a CDL,

random drug testing, medical certification, and other driver-qualification requirements.

A copy of RockTenn's application for exemption renewal is available for review in the docket for this notice.

**Comments**

On January 29, 2014 (79 FR 4802), FMCSA published notice of this application, and asked for public comment. The Agency received one comment. The commenter recommended that the exemption not be granted but did not provide a substantive basis for the recommendation.

**FMCSA Decision**

The FMCSA has evaluated RockTenn's application for exemption and the public comment. The Agency believes that RockTenn's overall safety performance as reflected in its "satisfactory" safety rating, as well as a number of other factors discussed below, will likely enable it to achieve a level of safety that is equivalent to, or greater than, the level of safety achieved without the exemption (49 CFR 381.305(a)).

This exemption is being renewed under extremely narrow conditions. The exemption is restricted to CDL holders employed by RockTenn who are exclusively assigned to a specific route. This route is entirely on one street (Compress Street), between the shipping and receiving departments—approximately 275 feet in one direction. The CMVs operated by RockTenn's shipping department shuttle drivers will be exposed to travel on a public road for only very brief periods of time. Although two crashes were reported for two drivers of RockTenn's locations in Alabama and Kentucky RockTenn has experienced no crashes or other safety issues as a result of CMV operations conducted under its current exemption, which has been in effect since April 17, 2012.

The exemption enables RockTenn's shipping department employees and occasional substitute CDL holders who transport paper mill products between the shipping and receiving locations to work up to 16 consecutive hours in a duty period and return to work with a minimum of at least 8 hours off duty when necessary. This is comparable to current HOS regulations that allow certain "short-haul" drivers a 16-hour driving "window" once a week and other non-CDL short-haul drivers two 16-hour duty periods per week, provided specified conditions are met. Furthermore, 49 CFR 381.305(a) specifies that motor carriers ". . . may

apply for an exemption if one or more FMCSR prevents you from implementing more efficient or effective operations that would maintain a level of safety equivalent to, or greater than, the level achieved without the exemption.”

### Terms of the Exemption

#### Period of the Exemption

The exemption from the requirements of 49 CFR 395.3(a)(2) (the “14-hour rule”) is granted for the period from 12:01 a.m. on April 17, 2014, through 11:59 p.m. on April 16, 2016, for drivers employed by RockTenn operating CMVs on Compress Street in Chattanooga, Tennessee, between the company’s shipping and receiving departments.

#### Extent of the Exemption

These drivers must comply will all other applicable provisions of the FMCSRs.

#### Preemption

In accordance with 49 U.S.C. 31315(d), during the period this exemption is in effect, no State shall enforce any law or regulation that conflicts with or is inconsistent with this exemption with respect to a firm or person operating under the exemption.

#### Notification to FMCSA

RockTenn must notify FMCSA within 5 business days of any accident (as defined in 49 CFR 390.5), involving any of the motor carrier’s CMVs operating under the terms of this exemption. The notification must include the following information:

- a. Date of the accident,
  - b. City or town, and State, in which the accident occurred, or closest to the accident scene,
  - c. Drivers name and license number,
  - d. Vehicle number and state license number,
  - e. Number of individuals suffering physical injury,
  - f. Number of fatalities,
  - g. The police-reported cause of the accident,
  - h. Whether the driver was cited for violation of any traffic laws, motor carrier safety regulations, and
  - i. The total driving time and total on-duty time period prior to the accident.
- Reports filed under this provision shall be emailed to [MCPSD@DOT.GOV](mailto:MCPSD@DOT.GOV).

#### Termination

FMCSA does not believe the drivers covered by this exemption will experience any deterioration of their safety record. However, should this occur, FMCSA will take all steps necessary to protect the public interest,

including revocation of the exemption. The FMCSA will immediately revoke the exemption for failure to comply with its terms and conditions.

Issued on: April 14, 2014.

**William Bronrott,**

*Deputy Administrator.*

## DEPARTMENT OF TRANSPORTATION

### Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2014–0015]

#### Qualification of Drivers; Exemption Applications; Diabetes Mellitus

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA).

**ACTION:** Notice of applications for exemptions; request for comments.

**SUMMARY:** FMCSA announces receipt of applications from 71 individuals for exemption from the prohibition against persons with insulin-treated diabetes mellitus (ITDM) operating commercial motor vehicles (CMVs) in interstate commerce. If granted, the exemptions would enable these individuals with ITDM to operate CMVs in interstate commerce.

**DATES:** Comments must be received on or before May 22, 2014.

**ADDRESSES:** You may submit comments bearing the Federal Docket Management System (FDMS) Docket No. FMCSA–2014–0015 using any of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.
- Mail: Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.
- Hand Delivery: West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

- Fax: 1–202–493–2251.

**Instructions:** Each submission must include the Agency name and the docket numbers for this notice. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below for further information.

**Docket:** For access to the docket to read background documents or comments, go to <http://www.regulations.gov> at any time or Room W12–140 on the ground level of the West Building, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Federal Docket Management System (FDMS) is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments on-line.

**Privacy Act:** Anyone may search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or of the person signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT’s Privacy Act Statement for the Federal Docket Management System (FDMS) published in the **Federal Register** on January 17, 2008 (73 FR 3316).

#### FOR FURTHER INFORMATION CONTACT:

Elaine M. Papp, Chief, Medical Programs Division, (202) 366–4001, [fmcsamedical@dot.gov](mailto:fmcsamedical@dot.gov), FMCSA, Department of Transportation, 1200 New Jersey Avenue SE., Room W64–224, Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

#### SUPPLEMENTARY INFORMATION:

##### Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The statute also allows the Agency to renew exemptions at the end of the 2-year period. The 71 individuals listed in this notice have recently requested such an exemption from the diabetes prohibition in 49 CFR 391.41(b)(3), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

#### Qualifications of Applicants

*Joshua T. Adams*

Mr. Adams, 25, has had ITDM since 2003. His endocrinologist examined him
