BILLING CODE 6210-01-P

FEDERAL TRADE COMMISSION

Division of Consumer and Business Education; Agency Information Collection Activities: Proposed Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Federal Trade Commission (“FTC” or “Commission”).

ACTION: 30-day notice of submission of information collection approval from the Office of Management and Budget (“OMB”) and request for comments.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the FTC is submitting a Generic Information Collection Request (Generic ICR): “Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” to OMB for approval under

the Paperwork Reduction Act (44 U.S.C. 3501 et. seq.).

DATES: Comments must be submitted by May 22, 2014.

ADDRESSES: Interested parties may file a comment online or on paper, by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Write “FTC Generic Clearance ICR, Project No. P035201” on your comment, and file your comment online at <https://ftcpublishcommentworks.com/ftc/genericclearancepra2> by following the instructions on the web-based form. If you prefer to file your comment on paper, mail or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Room H-113 (Annex J), 600 Pennsylvania Avenue NW., Washington, DC 20580.

FOR FURTHER INFORMATION CONTACT: To request additional information, please contact Nicole Fleming at 202-326-2372.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require

more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

The FTC received no comments in response to the 60-day notice published in the **Federal Register** on February 4, 2014 (79 FR 6592).

Below are the FTC’s projected average annual estimates for the next three years:

Current Actions: New collection of information

Type of Review: New collection
Affected Public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Government

Average Expected Annual Number of Activities: 3

Respondents: 1,680¹

Frequency of Response: Once per request

Annual Responses: 1,680

Average Minutes Per Response: 22 (rounded to nearest whole minute)

Burden Hours: 615

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The control number for the existing clearance (expiring May 31, 2014) is 3084-0159. The FTC seeks renewed three-year clearance under this control number for the prospective collection of information and the associated burden estimates.
