#### Submission for OMB Review; Comment Request

*Title:* Application Requirements for the Low Income Home Energy Assistance Program (LIHEAP) Plan  
*OMB No.:* 0970-0075

*Description:* In order to receive federal LIHEAP funds, States, the District of Columbia, tribes, tribal organizations, and territories applying for LIHEAP block grant funds must first submit an annual application (Plan) that meets the LIHEAP statutory and regulatory requirements. In prior years, each grantee was also required to submit a

Program Integrity Assessment Supplement (PIAS) annually with their Plan. The proposed revised Plan will combine the content of these two forms into one form, eliminating duplicative questions and streamlining the submission process. The proposed revised Plan will become an electronic form, to be submitted through the On-Line Data Collection System (OLDC), which is already being used by all LIHEAP grantees to submit other required ACF forms such as the SF-425 Federal Financial Report. The revised Plan will also provide grantees the option to respond to many questions by selecting one or more check-box responses, rather than providing a free-form text response. Grantees will still have the ability to enter free form text if none of the provided options are applicable. This is particularly true of the questions from the Program Integrity Assessment which had previously been all open-ended questions which resulted in inconsistent interpretation by grantees of the information sought and prevented ACF from analyzing programs nationwide in a consistent manner. This new re-formatting will also reduce the time grantees will spend on completing the form. It will also provide the Office of Community Services (OCS) with the ability to collect and analyze consistent data across all grantees in a streamlined manner. This will improve the information provided by ACF in the annual LIHEAP Report to Congress and other related reports to the U.S. Department of Health and Human Services and the Office of Management and Budget.

Grantees will no longer have the option of submitting their annual application by mail or other methods. This will reduce lost submissions. The electronic system also has data validation checks programmed to minimize incomplete submissions which reduce time by federal and grantee staff in revising submissions. Additionally, grantees will no longer have the option to submit an abbreviated Plan. All entries from each grantee's first submission of the Plan in OLDC will be saved and pre-populated into the form for the following fiscal year's application. Thus, after the first year, grantees will only need to make updates to the prior year's entries, as needed. The system will flag updated data which will reduce the time federal staff spend in reviewing Plans and communicating with grantees about their submission. Grantees will still be able to submit attachments as needed.
