

On December 2, 2013, EPA received a letter from NRG Reliability Solutions requesting an administrative permit amendment to its title V operating permit to change the location where records required by the permit are kept and to add insignificant emission units that were omitted from the permit's application during the permit renewal process. EPA determined that the requested changes to the permit did not qualify for an administrative permit amendment since 40 CFR 71.7(d)(1) did not authorize the use of an administrative permit amendment for some of the requested revisions. EPA directed NRG Reliability Solutions to submit an application for the requested revisions pursuant to the minor permit modification requirements at 40 CFR 71.7(e).

On January 8, 2014, EPA received a minor permit modification application requesting revisions to the permit originally requested in the December 2, 2013, letter. In addition to the revisions identified in the December 2, 2013, letter, NRG Reliability Solutions also requested the correction of a typographical error in one of the permit's conditions.

EPA processed the minor permit modification application according to the regulations governing minor permit modification requirements at 40 CFR 71.7(e). EPA determined that the requested revisions to the title V operating permit satisfied the criteria at 40 CFR 71.7(e)(1)(i). EPA also determined that the application submitted by NRG Reliability Solutions satisfied the minor permit modification application requirements at 40 CFR 71.7(e)(1)(ii). On January 22, 2014, EPA sent letters to the Prairie Island Indian Community, the state of Wisconsin, and the state of Minnesota notifying each affected entity that EPA received a complete minor permit modification application as required by 40 CFR 71.7(e)(1)(iii), 40 CFR 71.8(a), and 40 CFR 71.8(d). Pursuant to 40 CFR 71.11, EPA did not issue a public notice beyond notifying affected states or tribes or provide a public comment period for this permit action because the action is a minor permit modification.

EPA issued a final minor permit modification, permit number V-PI-2704900084-2012-12, on March 6, 2014, in accordance with 40 CFR 71.7(e)(1)(iv). A copy of the final minor permit modification was sent to NRG Reliability Solutions on March 12, 2014.
