**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request from the Office of Management and Budget (OMB) approval to renew an information collection. The FAA requires that certain performance information be provided in the Rotorcraft Flight Manual in order to show compliance to the regulatory requirements. The flight manual, by regulation, must be furnished with each aircraft.

This requires that certain performance information for safe operation of the rotorcraft be presented, in the form of tables, diagrams, or charts, in the flight manual. FAA engineers and designated engineers review the data submittals to determine that the rotorcraft complies with the applicable minimum safety requirements for rotorcraft performance and that the rotorcraft has no unsafe features.
