Notice of Lodging of Consent Decree Pursuant to the Clean Air Act

In accordance with Department policy, 28 CFR 50.7, notice is hereby given that on April 23, 2014, a Consent Decree in *United States v. Virgin Islands Water and Power Authority* ("VIWAPA"), Civil Action No. 2-13-CV-00028, was lodged with the United States District Court for the District of the Virgin Islands, St. Croix Division.

The Consent Decree resolves Clean Air Act violations alleged in the Amended Complaint filed by the United States on July 9, 2013. The violations alleged in the Amended Complaint concern VIWAPA's failure to properly operate and/or maintain its water injection systems on its gas turbine units, violation of its PM 10 emissions limits for gas turbine unit 19, failure to perform required audits and maintain required quality data availability, failure to properly operate and calibrate the continuous emission monitoring systems (CEMS) for NO_x and Co, and failure to properly record emissions and non-compliance.

The Consent Decree requires VIWAPA to improve its overall operations and maintenance at the St. Croix facility by implementing revised standard operating procedures, a spare parts program to minimize downtime in case of equipment failure, enhanced training and third party and self audits of the water injection system and continuous monitoring systems. The Consent Decree also requires a \$700,000 penalty to be paid within two years of the Effective Date of the Consent Decree. The penalty amount was based upon VIWAPA's limited financial ability to pay a penalty.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the Consent Decree. SUPPLEMENTARY INFORMATION:

I. Background

The SQSP represents an approach to the unemployment insurance performance management and planning process that allows for an exchange of information between the federal and state partners to enhance the ability of the program to reflect the joint commitment to performance excellence and client-centered services. As part of UI Performs, a comprehensive performance management system implemented in 1995 for the UI program, the SQSP is the principal vehicle that state UI agencies use to plan, record and manage program improvement efforts as they strive for excellence in service. The SQSP, which serves as the State Plan for the UI program, also serves as the grant document through which states receive federal UI administrative funding. The statutory basis for the SQSP is Title III, Section 302 of the Social Security Act, which authorizes the Secretary of Labor to provide funds to administer the UI programs, and Sections 303 (a) (8) and (9) which govern the expenditures of those funds. The SQSP represents an approach to tie program performance with the budget and planning process.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
