**Notice of Lodging of Proposed Consent Decree Under the Clean Air Act**

On April 24, 2014, the Department of Justice lodged a proposed consent decree with the United States District Court for the Northern District of Ohio in the lawsuit entitled *United States v. City of Akron, et al.*, Civil Action No. 5:14-cv-00884.

In the Complaint, the United States alleges that the City of Akron (“City”) and Akron Energy Systems LLC (“AES”) (collectively “Defendants”) violated, at a steam generating facility that they own and operate, respectively, in Akron, Ohio, the Prevention of Significant Deterioration regulations and the New Source Performance Standards, both promulgated under the Clean Air Act, 42 U.S.C. 7401 *et seq.*

Under the consent decree, the Defendants will shut down the facility’s coal-fired boiler by no later than September 30, 2015. The City will either replace the steam-generating capacity of the coal-fired boiler with one or more cleaner-burning natural gas-fired boilers or elect to shut down the facility. The City will pay a civil penalty of \$75,000 and undertake a project costing no less than \$390,000 to mitigate the harm of the alleged prior excess emissions from the coal-fired boiler.

The publication of this notice opens a period of public comment on the consent decree.
