[Docket No. FDA-2011-N-0021]

**AbbVie Inc., et al.; Proposal To Withdraw Approval of Abbreviated New Drug Applications for Prescription Pain Medications Containing More Than 325 Milligrams of Acetaminophen; Opportunity for a Hearing; Correction**

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; correction.

**SUMMARY:** The Food and Drug Administration (FDA) is correcting a notice that appeared in the **Federal Register** of March 27, 2014 (79 FR 17156). The document announced an opportunity to request a hearing on the Agency's proposal to withdraw approval of abbreviated new drug applications (ANDAs) from multiple sponsors. The document incorrectly stated that the approval of ANDAs 40825, 40822, and 40824, held by Ranbaxy Laboratories Inc. and Ranbaxy Inc., 600 College Rd. East, Princeton, NJ 08540, and ANDA 40182, held by Pharmaceutical Associates, Inc., 201 Delaware St., Greenville, SC 29605, had not been voluntarily withdrawn. FDA confirms that the approval of ANDAs 40825, 40824, 40822, and 40182 has been voluntarily withdrawn.

**FOR FURTHER INFORMATION CONTACT:** Rachel Turow, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 51, Rm. 6236, Silver Spring, MD 20993-0002, 301-796-5094.

**SUPPLEMENTARY INFORMATION:** In FR Doc. 2014-06802, appearing on page 17156, in the **Federal Register** of Thursday, March 27, 2014, the following correction is made:

On page 17157, in table 1, the entries for ANDAs 40825, 40824, 40822, and 40182 are removed. The approval of these applications has been withdrawn under 21 CFR 314.150(d).

Dated: April 24, 2014.

**Leslie Kux,**

*Assistant Commissioner for Policy.*

[Docket Nos. FDA-2011-E-0682; FDA-2011-E-0683]

**Determination of Regulatory Review Period for Purposes of Patent Extension; YERVOY**

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

**SUMMARY:** The Food and Drug Administration (FDA) has determined the regulatory review period for YERVOY and is publishing this notice of that determination as required by law. FDA has made the determination because of the submission of applications to the Director of Patents and Trademarks, Department of Commerce, for the extension of a patent which claims that human biological product.

**ADDRESSES:** Submit electronic comments to <http://www.regulations.gov>. Submit written petitions (two copies are required) and written comments to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. Submit petitions electronically to <http://www.regulations.gov> at Docket No. FDA-2013-S-0610.

**FOR FURTHER INFORMATION CONTACT:** Beverly Friedman, Office of Management, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 51, Rm. 6257, Silver Spring, MD 20993-0002, 301-796-7900.

**SUPPLEMENTARY INFORMATION:** The Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. L. 98-417) and the Generic Animal Drug and Patent Term Restoration Act (Pub. L. 100-670) generally provide that a patent may be extended for a period of up to 5 years so long as the patented item (human drug product, animal drug product, medical device, food additive, or color additive) was subject to regulatory review by FDA before the item was marketed. Under these acts, a product's regulatory review period forms the basis for determining the amount of extension an applicant may receive.

A regulatory review period consists of two periods of time: A testing phase and an approval phase. For human biological products, the testing phase begins when the exemption to permit the clinical investigations of the

biological becomes effective and runs until the approval phase begins. The approval phase starts with the initial submission of an application to market the human biological product and continues until FDA grants permission to market the biological product. Although only a portion of a regulatory review period may count toward the actual amount of extension that the Director of Patents and Trademarks may award (for example, half the testing phase must be subtracted as well as any time that may have occurred before the patent was issued), FDA's determination of the length of a regulatory review period for a human biological product will include all of the testing phase and approval phase as specified in 35 U.S.C. 156(g)(1)(B).

FDA has approved for marketing the human biologic product YERVOY (ipilimumab). YERVOY is indicated for the treatment of unresectable or metastatic melanoma. Subsequent to this approval, the Patent and Trademark Office received patent term restoration applications for YERVOY (U.S. Patent Nos. 6,984,720 and 7,605,238) from Medarex, Inc., and the Patent and Trademark Office requested FDA's assistance in determining the patents' eligibility for patent term restoration. In a letter dated July 2, 2012, FDA advised the Patent and Trademark Office that this human biological product had undergone a regulatory review period and that the approval of YERVOY represented the first permitted commercial marketing or use of the product. Thereafter, the Patent and Trademark Office requested that FDA determine the product's regulatory review period.

FDA has determined that the applicable regulatory review period for YERVOY is 3,879 days. Of this time, 3,605 days occurred during the testing phase of the regulatory review period, while 274 days occurred during the approval phase. These periods of time were derived from the following dates:

1. *The date an exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(i)) became effective:* August 12, 2000. FDA has verified the applicant's claim that the date the investigational new drug application became effective was on August 12, 2000.

2. *The date the application was initially submitted with respect to the human biological product under section 351 of the Public Health Service Act (42 U.S.C. 262):* June 25, 2010. FDA has verified the applicant's claim that the biologics license application (BLA) for YERVOY (BLA 125377/0) was initially submitted on June 25, 2010.
