Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The Fund for the Improvement of Education (FIE), which is authorized by section 5411 of the Elementary and Secondary Education Act of 1965, as amended (ESEA), supports nationally significant programs to improve the quality of elementary and secondary education at the State and local levels and to help all children meet challenging academic content and academic achievement standards. The

Full-Service Community Schools (FSCS) program, which is funded under FIE, encourages coordination of academic, social, and health services through partnerships between (1) public elementary and secondary schools; (2) the schools' local educational agencies (LEAs); and (3) community-based organizations, nonprofit organizations, and other public or private entities. The purpose of this collaboration is to provide comprehensive academic, social, and health services for students, students' family members, and community members that will result in improved educational outcomes for children. The FSCS program is a "place-based" program (see http://www.whitehouse.gov/sites/default/files/omb/assets/memoranda_fy2009/m09-28.pdf) that can leverage investments by focusing resources and drawing on the compounding effects of well-coordinated actions. Place-based approaches can also streamline otherwise redundant and disconnected programs.

Priorities: This notice contains one absolute priority and one competitive preference priority. The absolute priority is from the notice of final priorities, requirements, definitions, and selection criteria for this program (FSCS NFP), published in the **Federal Register** on June 8, 2010 (75 FR 32440). The competitive preference priority is from the notice of final priority for Promise Zones (Promise Zones NFP), published in the **Federal Register** on March 27, 2014 (79 FR 17035).

Absolute Priority: For FY 2014 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Projects that Establish or Expand Full-Service Community Schools.

Background:

In order for children to be ready and able to learn, they need academic, social, and health supports. The Harvard Family Research Project has cited compelling evidence that, when schools partner with families and community-based organizations, these partnerships improve children's development and school success.¹ Community schools provide a base of support for students and their families by attending to their academic, social,

¹Harris, E & Wilkes, S (2013). *Partnerships for Learning: Community Support for Youth Success*. Cambridge: Harvard Family Research Project.

and health needs through a school setting.

A full-service community school (as defined in this notice) is a public elementary or secondary school that works with its LEA and community-based organizations, nonprofit organizations, and other public or private entities to provide a coordinated and integrated set of comprehensive academic, social, and health services that respond to the needs of its students, students' family members, and community members. This coordination leads to results-focused partnerships (as defined in this notice) that are based on identified student needs and organized around a set of mutually defined results and outcomes.

Full-service community schools recognize that schools do not operate in isolation from the communities in which they are located. Community challenges such as poverty, violence, poor physical health, and family instability can have consequences for education when left unaddressed. When schools and community partners collaborate to address these issues and align their resources to achieve common results, children are more likely to succeed academically, socially, and physically. Full-service community schools seek to address the myriad challenges that affect students by connecting students, students' family members, and community members with available services and opportunities, creating the conditions for students to achieve in school and beyond.

Children, particularly those living in poverty, need a variety of family and community resources, including intellectual, social, physical, and emotional supports, to have the opportunity to attain academic success. Many children live in communities that lack not only high-performing schools, but also the supports needed to be ready and able to learn when they start school. School-community partnerships can be key strategies for providing resources to these individual students. A variety of organizations can help provide the missing resources for children living in poverty and, therefore, begin to transform struggling schools and communities. These organizations can be public or private, community-based or faith-based, governmental or non-governmental, or a combination thereof, but they must work together with clearly articulated and mutually agreed upon goals, target populations, roles, and desired results and outcomes. Partnerships between schools and organizations may take many forms and should be based on overlapping vital

interests and student needs. For example, a telecommunications firm might provide internships to high school students to foster real-world connections to the school's science curriculum. Or, a local police department might provide mentors for troubled youth in order to keep students in school. Such results-focused partnerships (as defined in this notice) can transform the capacity of both the school and its partners to better serve students' and families' diverse needs and improve their outcomes.

A full-service community school coordinator (as defined in this notice) is often central to the effective facilitation of these partnerships, as well as the coordination and integration of services, programs, supports, and available opportunities. The full-service community school coordinator's main responsibility is to work closely and plan jointly with the school's principal to drive, develop, and implement the community school effort. The full-service community school coordinator by, for example, convening a cross-section of school staff, parents, and community organizations, can facilitate the development of systems with which to coordinate new and existing programs that respond to the needs of the school and community through ongoing needs assessments. The full-service community school coordinator adds capacity to the principal's leadership of the school and is essential to ensuring that all programs, supports, services, opportunities, and the mutually defined results and outcomes are fully aligned.

The Department of Education (the Department) recognizes that in order for students and the members of the communities in which they reside to thrive, their schools must be effective. Effective schools create learning environments that support student academic success and foster student engagement. When characterized by stable leadership and a strong instructional program, full-service community schools have been associated with improved attendance and student achievement,² increased family and community engagement,³ and improved student behavior and youth development.⁴ In addition,

system-wide support should be present for developing, implementing, and sustaining effective full-service community schools. There is greater potential impact when full-service community schools have strong infrastructures in place to support sustaining the overall effort and expanding the number of FSCS sites throughout an LEA.

Priority:

This absolute priority supports projects that propose to establish or expand (through collaborative efforts among LEAs, community-based organizations, nonprofit organizations, and other public and private entities) full-service community schools, as defined in this notice, offering a range of services. To meet this priority, an applicant must propose a project that is based on scientifically based research—as defined in section 9101(37) of the ESEA—and that establishes or expands a full-service community school. Each applicant must propose to provide at least three of the following eligible services at each participating full-service community school included in its proposed project:

1. High-quality early learning programs or services.
2. Remedial education, aligned with academic supports and other enrichment activities, providing students with a comprehensive academic program.
3. Family engagement, including parental involvement, parent leadership, family literacy, and parent education programs.
4. Mentoring and other youth development programs.
5. Community service and service learning opportunities.
6. Programs that provide assistance to students who have been chronically absent, truant, suspended, or expelled.
7. Job training and career counseling services.
8. Nutrition services and physical activities.
9. Primary health and dental care.
10. Activities that improve access to and use of social service programs and programs that promote family financial stability.
11. Mental health services.
12. Adult education and literacy services including instruction of adults in English as a second language.

Competitive Preference Priority: For FY 2014 and any subsequent year in which we make awards from the list of

Challenges, and Emerging Lessons. Chicago: University of Illinois at Chicago. Retrieved April 9, 2010. from http://www.aypf.org/documents/CSI_ThreeYearStudy.pdf.

unfunded applicants from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i) we award an additional three points to an application, depending on whether the application meets this priority.

This priority is:

Promise Zones (0 or 3 points).

Background:

We give competitive preference to applicants working with communities that have been awarded a Promise Zone designation. Promise Zone designees have committed to establishing comprehensive, coordinated approaches in order to ensure that America's most vulnerable children succeed from cradle to career. In January 2014, President Obama announced the first five Promise Zones: The Choctaw Nation of Oklahoma, Los Angeles, Philadelphia, San Antonio, and Kentucky Highlands. This designation is designed to assist local leaders in creating jobs, increasing economic activity, improving educational opportunities, leveraging private investment, and reducing violent crime in high-poverty urban, rural, and tribal communities. By partnering with Promise Zone designees, the Federal government will help communities access the resources and expertise they need—including the resources from various neighborhood revitalization initiatives—to ensure that Federal programs and resources support the efforts to transform these communities.

Priority:

Projects that are designed to serve and coordinate with a federally designated Promise Zone.

Note: Applicants should submit a letter of support from the lead organization of a designated Promise Zone attesting to the contribution of the applicant's proposed activities. A list of designated Promise Zones and lead organizations can be found at <http://hud.gov/promisezones>.

Definitions: The following definitions are from the FSCS NFP and from 34 CFR 77.1(c).

Community member means an individual who is not a student or a student's family member, as defined in this notice, but who lives in the community served by the FSCS grant.

Full-service community school means a public elementary or secondary school that works with its local educational agency and community-based organizations, nonprofit organizations, and other public or private entities to provide a coordinated and integrated set of comprehensive academic, social, and health services that respond to the needs of its students, students' family members, and community members. In

addition, a full-service community school promotes family engagement by bringing together many partners in order to offer a range of supports and opportunities for students, students' family members, and community members.

Full-service community school coordinator means an individual who works closely and plans jointly with the school's principal to drive the development and implementation of the FSCS effort and who, in that capacity, facilitates the partnerships and coordination and integration of service delivery.

Relevant outcome means the student outcome(s) (or the ultimate outcome if not related to students) the proposed process, product, strategy, or practice is designed to improve; consistent with the specific goals of a program.

Results-focused partnership means a partnership between a full-service community school and one or more nonprofit organizations (including community-based organizations) that is based on identified needs and organized around a set of mutually defined results and outcomes for increasing student success and improving access to family and community services.

Student means a child enrolled in a public elementary or secondary school served by the FSCS grant.

Student's family member means the student's parents/guardians, siblings, and any other related individuals living in the same household as the student and not enrolled in the school served by the FSCS grant.

6. A list and description of the eligible services to be provided or coordinated by the applicant and the partner entities; a description of the applicant's approach to integrating new and existing programs and services with the school's (or schools') core instructional program; and identification of the intended results and outcomes.

7. A description of how the applicant will use data to drive decision-making and measure success. We do not consider an application that does not comply with the deadline requirements.

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application process should contact the person listed under **FOR FURTHER INFORMATION CONTACT** in section VII of this notice. If the Department provides an accommodation or auxiliary aid to an individual with a disability in connection with the application process, the individual's application remains subject to all other requirements and limitations in this notice.

Deadline for Intergovernmental Review: July 7, 2014.

5. *Intergovernmental Review*: This competition is subject to Executive Order 12372 and the regulations in 34 CFR part 79. Information about Intergovernmental Review of Federal Programs under Executive Order 12372 is in the application package for this competition.

6. *Funding Restrictions*: We reference regulations outlining funding restrictions in the *Applicable Regulations* section in this notice.

7. *Data Universal Numbering System Number, Taxpayer Identification Number, and Central Contractor Registry*: To do business with the Department of Education, you must—

a. Have a Data Universal Numbering System (DUNS) number and a Taxpayer Identification Number (TIN);

b. Register both your DUNS number and TIN with the System for Award

Management (SAM) (formerly the Central Contractor Registry (CCR)), the Government's primary registrant database;

c. Provide your DUNS number and TIN on your application; and

d. Maintain an active SAM registration with current information while your application is under review by the Department and, if you are awarded a grant, during the project period.

You can obtain a DUNS number from Dun and Bradstreet. A DUNS number can be created within one-to-two business days.

If you are a corporate entity, agency, institution, or organization, you can obtain a TIN from the Internal Revenue Service. If you are an individual, you can obtain a TIN from the Internal Revenue Service or the Social Security Administration. If you need a new TIN, please allow 2–5 weeks for your TIN to become active.

The SAM registration process can take approximately seven business days, but may take upwards of several weeks, depending on the completeness and accuracy of the data entered into the SAM database by an entity. Thus, if you think you might want to apply for Federal financial assistance under a program administered by the Department, please allow sufficient time to obtain and register your DUNS number and TIN. We strongly recommend that you register early.

Note: Once your SAM registration is active, you will need to allow 24 to 48 hours for the information to be available in Grants.gov and before you can submit an application through Grants.gov.

If you are currently registered with SAM, you may not need to make any changes. However, please make certain that the TIN associated with your DUNS number is correct. Also note that you will need to update your registration annually. This may take three or more business days.

Information about SAM is available at www.SAM.gov. To further assist you with obtaining and registering your DUNS number and TIN in SAM or updating your existing SAM account, we have prepared a SAM.gov Tip Sheet, which you can find at: <http://www2.ed.gov/fund/grant/apply/sam-faqs.html>.

In addition, if you are submitting your application via Grants.gov, you must (1) be designated by your organization as an Authorized Organization Representative (AOR); and (2) register yourself with Grants.gov as an AOR. Details on these steps are outlined at the following Grants.gov Web page: <http://>

www.grants.gov/web/grants/register.html.

7. Other Submission Requirements:

Applications for grants under this competition must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

a. Electronic Submission of Applications.

Applications for grants under the FSCS Program, CFDA Number 84.215J, must be submitted electronically using the Government wide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us.

We will reject your application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under *Exception to Electronic Submission Requirement*.

You may access the electronic grant application for the FSCS Program at www.Grants.gov. You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.215, not 84.215J).

Please note the following:

- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

- Applications received by Grants.gov are date and time stamped. Your application must be fully uploaded and submitted and must be date and time stamped by the Grants.gov system no later than 4:30:00 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not accept your application if it is received—that is, date and time stamped by the Grants.gov system—after 4:30:00 p.m., Washington, DC time, on the application deadline date. We do not consider an application that does not comply with the deadline requirements. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your

application because it was date and time stamped by the Grants.gov system after 4:30:00 p.m., Washington, DC time, on the application deadline date.

- The amount of time it can take to upload an application will vary depending on a variety of factors, including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this program to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov under News and Events on the Department's G5 system home page at www.G5.gov.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

- You must submit all documents electronically, including all information you typically provide on the following forms: The Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications.

- You must upload any narrative sections and all other attachments to your application as files in a PDF (Portable Document) read-only, non-modifiable format. Do not upload an interactive or fillable PDF file. If you upload a file type other than a read-only, non-modifiable PDF or submit a password-protected file, we will not review that material.

- Your electronic application must comply with any page-limit requirements described in this notice.

- After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by email. This second notification indicates that the Department has received your application and has assigned your application a PR/Award number (an ED-

specified identifying number unique to your application).

V. Application Review Information

1. *Selection Criteria:* The selection criteria for this competition are from the NFP for this program, published in the **Federal Register** on June 8, 2010 (75 FR 13781) and from 34 CFR 75.210. These selection criteria are listed in the application package as well as this notice. We may apply one or more of these criteria in any year in which this program is in effect. The maximum score for each criterion is indicated in parentheses with the criterion, and the total maximum score for all selection criteria is 100 points.

The selection criteria are as follows:

(a) *Quality of the Project Design* (up to 25 points).

(1) The Secretary considers the quality of the design of the proposed project.

(2) In determining the quality of the design of the proposed project, the Secretary considers the extent to which the proposed project consists of a

comprehensive plan that includes a description of—

(i) The students, students' family members, and community to be served, including information about the demographic characteristics and needs of the students, students' family members, and other community members and the estimated number of individuals to be served;

(ii) The eligible services (as listed in the Absolute Priority described elsewhere in this notice) to be provided or coordinated by the applicant and its partner entities, how those services will meet the needs of students, students' family members, and other community members, and the frequency with which those services will be provided to students, students' family members, and community members;

(iii) The potential and planning for the incorporation of project purposes, activities, or benefits into the ongoing work of the applicant beyond the end of the grant; and

(iv) The extent to which the proposed project will integrate with or build on similar or related efforts to improve relevant outcomes (as defined in this notice), using existing funding streams from other programs or policies supported by community, State, and Federal resources.

(b) *Adequacy of Resources* (up to 20 points).

(1) The Secretary considers the adequacy of resources for the proposed project.

(2) In determining the adequacy of resources for the proposed project, the Secretary considers the following factors—

(i) The adequacy of support, including facilities, equipment, supplies, and other resources to be provided by the applicant and consortium partners;

(ii) The relevance and demonstrated commitment of each partner in the proposed project to the implementation and success of the project; and

(iii) The extent to which costs are reasonable in relation to the number of persons to be served and services to be provided.

(c) *Quality of the Management Plan* (up to 25 points).

(1) The Secretary considers the quality of the management plan for the proposed project.

(2) In determining the quality of the management plan for the proposed project, the Secretary considers the following factors—

(i) The extent to which the proposed project consists of a comprehensive plan that includes a description of planning, coordination, management, and oversight of the eligible services (as

listed in the Absolute Priority described elsewhere in this notice) to be provided at each school to be served, including the role of the school principal, the FSCS coordinator, partner entities, parents, and community members; and

(ii) The qualifications, including relevant training and experience, of the full-service community school coordinator and other key project personnel including prior performance of the applicant on similar or related efforts.

(d) *Quality of Project Services* (up to 20 points).

(1) The Secretary considers the quality of the services to be provided by the proposed project.

(2) In determining the quality of the project services, the Secretary considers the following—

(i) The extent to which the services to be provided by the proposed project reflect up-to-date knowledge from research and effective practice; and

(ii) The likelihood that the services to be provided by the proposed project will lead to improvements in the achievement of students as measured against rigorous academic standards.

(e) *Quality of the Project Evaluation* (up to 10 points).

(1) The Secretary considers the quality of the evaluation to be conducted of the proposed project.

(2) In determining the quality of the evaluation, the Secretary considers the extent to which the proposed evaluation—

(i) Will provide timely and valid information on the management, implementation, or efficiency of the project; and

(ii) Will provide guidance on or strategies for replicating or testing the project intervention in multiple settings.

(3) The extent to which the methods of evaluation will provide valid and reliable performance data on relevant outcomes.

Factors Applicants May Wish to Consider in Developing an Evaluation Plan: The quality of the evaluation plan is one of the selection criteria by which applications in this competition will be judged. A strong evaluation plan should be included in the application narrative and should be used, as appropriate, to shape the development of the project from the beginning of the project period. The plan should include benchmarks to monitor progress toward specific project objectives and also outcome measures to assess the impact on teaching and learning or other important outcomes for project participants. More specifically, the plan should identify the individual or organization that has agreed to serve as evaluator for the

project and describe the qualifications of that evaluator. The plan should describe the evaluation design, indicating: (1) What types of data will be collected; (2) when various types of data will be collected; (3) what methods will be used; (4) what instruments will be developed and when; (5) how the data will be analyzed; (6) when reports of results and outcomes will be available; and (7) how the applicant will use the information collected through the evaluation to monitor progress of the funded project and to provide accountability information both about success at the initial site and about effective strategies for replication in other settings. Applicants are encouraged to devote an appropriate level of resources to project evaluation.

2. *Review and Selection Process:* We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary also requires various assurances including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department of Education (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. *Special Conditions:* Under 34 CFR 74.14 and 80.12, the Secretary may impose special conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 34 CFR parts 74 or 80, as applicable; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify

administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. *Performance Measures:* The Secretary has established one performance indicator for this program: The percentage of individuals targeted for services who receive services during each year of the project period. All grantees will be required to submit an annual performance report documenting their contribution in assisting the Department in measuring the performance of the program against this indicator, as well as performance on project-specific indicators.

5. *Continuation Awards:* In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made "substantial progress toward meeting the objectives in its approved application" and the performance measures established for this program. This consideration includes the review of a grantee's progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the

assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
