DEPARTMENT OF JUSTICE**Notice of Lodging of Proposed Stipulation Modifying Consent Decree Under the Clean Air Act**

On May 1, 2014, the Department of Justice lodged a proposed stipulation modifying the consent decree ("Stipulation") entered in the lawsuit entitled *United States and the Oklahoma Department of Environmental Quality v. Owens-Brockway Glass Container Inc.* (Civil No. 3:12-cv-02961), filed in the United States District Court for the Northern District of Ohio.

The United States and Oklahoma Department of Environmental Quality ("ODEQ") filed this lawsuit in 2012 under the Clean Air Act. The consent decree entered in this matter requires that the defendant, Owens-Brockway Glass Container Inc. ("Owens-Brockway"), perform injunctive relief, pay a civil penalty, and perform a mitigation project in order to resolve claims that the defendant violated the Clean Air Act's Prevention of Significant Deterioration and Non-Attainment New Source Review requirements at five of its glass

manufacturing plants in the United States.

The Stipulation permits Owens-Brockway to seek approval to install and operate an alternative to the nitrogen oxide (NO_x) emission control technology that is currently required by the consent decree at Owens-Brockway's glass bottle manufacturing plant in Muskogee, Oklahoma. Two types of alternative NO_x control technologies, "oxyfuel" and selective catalytic reduction, are permitted to be installed and operated at the Muskogee, Oklahoma facility upon written notice to the United States Environmental Protection Agency and ODEQ.

Publication of this notice opens a period for public comment on the proposed Stipulation. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and the Oklahoma Department of Environmental Quality v.
