United States Standards for Grades of Maple Sirup

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: The Agricultural Marketing Service (AMS) of the Department of Agriculture (USDA) is soliciting public comments on a proposed revision to the United States Standards for Grades of Maple Sirup (Syrup). AMS received a petition from the International Maple Syrup Institute (IMSI) requesting a revision of the U.S. grade standards. IMSI stated it is interested in developing harmonized grade standards for maple syrup producers in the United States and Canada, and asked AMS to replace the current grade classification requirements with new color and flavor descriptors, and revise Grade A requirements to be free from damage. AMS is also proposing to change the spelling from "sirup" to the more commonly used term "syrup." The proposed grade standards would revise the existing federal grade standards for maple sirup (syrup). The purpose of these proposed revisions would be to foster or assist in the development of new or expanded markets, and improve the marketing of maple syrup in the U.S. and internationally.
