**SUPPLEMENTARY INFORMATION:** This temporary closure is being made for public safety and affects public lands near the US Magnesium Rowley Plant in Tooele County, Utah. The U.S. Environmental Protection Agency (EPA) and US Magnesium (USM) have voluntarily entered into an Administrative Order on Consent (AOC) to address the recent release of acidic liquid waste from USM's magnesium production facility onto its own and adjacent BLM lands. The AOC details a three-phased action plan to address the spill. The first phase is to immediately fence the portion of the spill on BLM-managed lands. On February 25, 2014, the BLM issued a letter of authorization to USM to take immediate action and construct a fence on BLM-administered lands around the acidic liquid waste spill area. The BLM also issued a closure order for the area within the enclosure surrounding the waste spill area. This closure order was posted in the Salt Lake Field Office on February 25, 2014. A map of the affected area and other documents associated with this closure are available at 2370 South Decker Lake Boulevard, West Valley, Utah 84119, or online at: <https://www.blm.gov/ut/enbb/index.php>. These actions are emergency responses for public safety, which under the applicable regulation do not require prior NEPA compliance (43 CFR 46.150(a)). The BLM will be preparing a separate environmental assessment evaluating an extension of the temporary closure beyond the initial period identified above. Under the authority of Section 303(a) of the Federal Land Policy and Management Act of 1976 (42 U.S.C. 1733(a)), as amended, and 43 CFR 8364.1, the BLM is enforcing the following closure for public safety:
